## Left Beaver Highway Work To Be Begun At Once, Delegation Told

The state highway commission within the next two weeks will ask for bids for grade and drain construction of approximately 10 miles of the Left Beaver Creek road, members of the Floyd county delegation attending the highway commission meeting in Frankfort Tuesday said upon their return here.

The project will extend from McDowell to Wheelwright Junction. On the gap between Hunter and McDowell which lacks grade and drain completion county road work will be sought. Magistrate Willie Hall, of McDowell, said Wednesday. He also said that some gravel will be applied to the part of the highway already graded.

The Left Beaver route, one of the most important in this county, has in its uncompleted state for years almost segregated sections from the remainder of the county, and at the same time has had easy access to Pikeville over the Abner fork road constructed several years ago at the expense of Floyd county.

## HAULEY HUGHES IS KILLED SUNDAY BY ADAMS NEAR BOSCO

Dispute Over Barn Figures in Tragedy, Report; Slayer Jailed

An investigation into the slaying Sunday afternoon at Reed Branch, near Hueysville, of Hauley Hughes, 28 years old, was started by the grand jury here Tuesday afternoon.

John Adams, a man of about 45 years, is in jail here as this is written, held as the slayer of Hughes.

Hughes, shot through his body by one bullet from a .38-calibre revolver, walked a few yards from the scene of the shooting, slumped across a fence and died within five minutes. His slayer was taken into custody by Policeman Ep Laferty, of Garrett, and was brought here by Deputy Sheriff Elson Kendrick and J. D. Fitzgibbon.

Adams is quoted as saying that Hughes was tearing from his barn a door and that when he told him to stop Hughes reached for his revolver. It was also claimed that Hughes had previously taken a door from the barn, and that the two men had had an argument over the property.

### REDUCTIO AD ABSURDUM

A ridiculous news story published last week in The Cincinnati Enquirer is indicative of the faulty reasoning. If there is any reasoning, back of the movement to nominate candidates for Governor of Kentucky by convention.

This news story charges that certain Kentucky newspapers favor the selection of gubernatorial candidates by primary because they want the political printing and advertising to be derived from a primary election campaign.

That's a laugh to us who know how little the ordinary small-town printer and newspaper gets of political printing or advertising in a gubernatorial primary. The Times cannot speak for all Kentucky newspapers, but it can speak for its own experience. And that experience is that, with the exception of the printing of, perhaps, a thousand or so bills announcing speaking dates, we have never profited from state primaries.

Your candidate for nomination for Governor does not go about the state having candidate cards printed at every town. To date, he has almost entirely overlooked the small newspaper in presenting his case to the people through the medium of advertising.

One thing is certain. If the newspaper and printing plants of Kentucky were paid for work fifty times what they have received from the gubernatorial primaries in the past, their income would yet be pitifully insignificant as compared with what is spent in conventions. And that money spent in connection with conventions is not spent for candidate cards and newspaper space. Remember that.

## THE NEW FORD V-8 FOR 1935

### NOW ON DISPLAY

**A New Ford V-8 That Brings New Beauty, New Safety, and a New Kind of Riding Comfort Within Reach of Millions of People**

The New Ford V-8 for 1935 is the biggest and roomiest Ford car ever built. It is a strikingly handsome car, with modern lines and new, luxurious appointments.

But most important of all it is especially designed to give you smooth, easy riding over all kinds of roads—"a front-seat ride for back-seat riders."

This ease of riding is achieved by the use of three basic principles never before combined in a low-price car.

1. Correct distribution of car weight by moving engine and body forward eight and a half inches.

2. New location of seats by which the rear seat is moved forward, toward the center of the car—away from the rear axle and away from the bumps.

3. New spring suspension which permits the use of longer, more flexible springs and increases the springbase to 123 inches.

The result is Center-Poise—which not only gives you a new riding comfort but adds to the stability of the car and its

ease of handling. You can take curves with greater safety.

There are many new features in the Ford V-8 for 1935 which make the car still easier to drive. New brakes give more power for stopping quickly with less foot pressure on the pedal.

A new type of easy-pressure clutch employs centrifugal force to increase efficiency at higher speeds. New steering mechanism makes the car still easier to handle. New, wider, roomier seats.

The New Ford V-8 for 1935 retains the V-8 engine which has demonstrated its dependability and economy in the service of more than a million owners. These are refinements, but no change in

basic design. You buy premium performance when you buy this Ford V-8—full 85 horsepower and capable of 80 miles an hour. All Ford V-8 cars for 1935 come equipped with Safety Glass throughout at no additional cost.

We invite you to see this New Ford V-8 for 1935 at the showrooms of Ford dealers. You will want to ride in it to drive it yourself. You will find it a new experience in motoring.

He also stated that Adams did not speak until he had fired two shots, only one of which took effect, then shoved Hughes away from the barn and cursed him as he left. The subject, he said, entered his brother's body in the back, near the right shoulder blade, ranged across and emerged into his clothing in his left side. He said it was true that the men had had an argument over the barn, but said that both had an agreement to share it for their livestock.

Victim of the shooting was a son of Daniel Hughes, of Huesville. Besides his parents, he has survived by his widow and three children and by four brothers and four sisters: Jim, Jake, Billy and Miles Hughes, Mrs. Jack Adkins, Mrs. Jack Fitzpatrick, Mrs. Marcus Hannah, and Miss Sarah Hughes. Funeral rites were conducted Tuesday by Revs. M. C. Wright and A. J. Moore, with burial following near Midas.

A DEMAND FOR JUSTICE Attorney General Bailey P. Wootton expressed the belief that coal operators in the northeast Kentucky fields will get an adjustment in freight rates when decision of the Interstate Commerce Commission is rendered on the controversy recently submitted.

General Wootton recently was in Washington where he argued the case before the entire commission and expects a decision early in January.

General Wootton asked the Interstate Commerce Commission to grant coal operators in the northeast Kentucky coal fields the same rate that is enjoyed by coal shipped from the Logan, W. Va., field.

Kentucky coal pays a freight rate of \$1.67 a ton to the Ohio river, Catlettsburg being the point on which the rate is figured.

Coal from the Logan, W. Va., fields pays a freight rate of 50 cents a ton to the Ohio river, at Huntington.

It was pointed out to the commission that the fact that West Virginia coal is getting a rate which permits shipping coal 67 cents a ton cheaper than Kentucky coal can be transported is seriously crippling the Kentucky mining industry.

Justice demands an equalizing of the rates either by lowering the rate charged by Kentucky shippers, or raising the rate West Virginia operators are required to pay.

The average haul from the Kentucky coal field is only 11 miles farther than from the West Virginia field, although the freight rate is 67 cents a ton more.

10 million tons of coal a year is shipped from the northeast Kentucky field, and a saving of \$6,700,000 a year in freight charges would be effected for shippers should the rate in this state be equalized with that prevailing in West Virginia.

Style of the case is Northeast Kentucky Coal Bureau vs. the C. & O. Railroad. General Wootton led an intervenient petition making Kentucky a party to the suit, and filed a leading part in the litigation.—Ashland Daily Independent.

PLAN DISTRIBUTION OF 80,000 QUILTS

Louisville, Ky., Dec. 28.—Plans are well under way by the Kentucky Emergency Relief Administration for the ultimate distribution of 80,000 comforters to the needy of the state.

Each county, Miss Fullerton said, now has on hand a sufficient amount of material for the manufacture of 400 comforters each.

Additional material will be shipped to the state from time to time as it is needed. Distribution of the comforters to relief clients rests in the hands of the respective area administrators.

In outlining her plan for comforter projects Miss Fullerton said her hope was to have at least one factory in each of the 120 counties in Kentucky.

The government, she pointed out, furnishes cotton, covering, yarn, labels and lumber for comforter frames as well as the labor.

To date 10,198 mattresses have been made by the Kentucky Emergency Relief Administration for distribution among the needy.

Factories now are in operation at Hopkinsville, Owensboro, Leitchfield, Louisville, Box of Green, Burkesville, Frankfort, Richmond, Irvine, Orbin and Hazard.

The first mattress project was opened in September. A comforter project is in full swing at Prestonsburg.

UNEMPLOYED ASKED TO KEEP OFFICE INFORMED W. A. Peterman, district manager of the National Relief Employment Service, District No. 11, Pikeville, which comprises the counties of Floyd, Letchfield, Johnson, Martin, Knott, Leslie, Letcher, Magoffin, Perry, Pike and Wolfe, this week issued the following statement:

"In many instances the persons seeking employment are indifferent as to the return of the form 324 Renewal Card which is being mailed to all registered applicants. SAYS FIVE LAWS SAVE \$5,000,000

Frankfort, Ky., Jan. 2.—Approximately \$5,000,000 a year will be saved to Kentucky taxpayers as result of five laws enacted by the last state legislature, it is estimated by Geo. T. Holmes, executive secretary of the Kentucky Tax Reduction Association, in an analysis of recent legislation.

The acts through which it is anticipated increased economy in county government will be effected are listed as the measures which provide for a county budget system, a county inspection and audit method, the merger of the office of jailer and sheriff, the abolishment of trustee of the jury fund, and creation of a uniform fiscal year.

These measures were endorsed by the Kentucky Tax Reduction Association and were given the full support of the state administration, to whom Mr. Holmes says much credit

is due for their enactment into law. The law which encountered most opposition was that which provides for combining the office of jailer with that of the sheriff. A survey revealed that the office of jailer was one of the most lucrative in the state.

Mr. Holmes said, and the annual saving which will be realized from abolishing the jailer's office in 120 counties and placing the duties of the jailer in the hands of a deputy sheriff on a salary basis, will run into thousands of dollars.

Under the old law the jailer is compensated by fees and many jailers receive the constitutional limit of \$5,000 a year compensation.

Mr. Holmes declared that the Tax Reduction Association composed of leading taxpayers in representative communities throughout the state, was concentrating on the task of cutting down the cost of local government first, because the major portion of all tax funds are spent within a state's throw of the taxpayer himself.

Mr. Holmes said that in Kentucky, state, county, city government, the total cost of government is \$92,000,000. Of that amount 30 per cent is state expenses, 35 per cent is city expenses, and 37 per cent is county cost.

"Is Greatest I Ever Heard Of," She Says; Like Different Person Entirely; Was Nerve Victim

Mrs. A. Alvey, of 228 Hamilton Ave., Owensboro, Ky., is still another LONG TIME resident of this vicinity who is publicly praising the new, scientific mixture

of Medicinal Plant Juices, known as Indo-Vin, which is now being introduced to the public daily here in Prestonsburg at Hughes' Drug Store. Following is this widely-known lady's statement: "My nerves had just about gotten the best of me," said Mrs. Alvey. "I was very irritable and the least little thing would upset me, my nerves were on edge ALL THE TIME and it just seemed like I couldn't get a decent night of rest. I was losing weight and this nervous condition was beginning to undermine my health."

"I tried ALL KINDS of medicine, but Indo-Vin was the only medicine I ever found that turned out to be what I needed. It certainly had a wonderful action on my nerves, they are strong and steady now, and I can go to sleep and I never wake up until the next morning. My energy has increased ten-fold since this medicine had its wonderful action on my nerves. I am GLAD to endorse Indo-Vin for it deserves anybody's praise." Washington, D. C.—A constitutional amendment prescribing four year terms for members of the House of Representatives was proposed by Representative Vinson, Democrat, Georgia. "With a four-year term," said the Georgia, "the House members would come in with the administration and stay with the President during his full term. They would not have to spend so much time in playing politics as under the present two-year tenor." Vinson will introduce a resolution putting the proposal before the new Congress.
