INSPECTION RECORD

MINUTES

The proceedings of the Floyd County Board of Education are recorded in the minute book maintained by this Department. The minutes are read, approved and signed by the chairman and secretary. The board orders are in legal form. The minute book contains a list of county board members and subdistrict trustees, the time of the election, qualifications, and tenure of office. Teachers' service record, teachers' certificate record and teachers' salary record are complete. Teachers are paid according to the salary schedule and the monthly reports are of record in the office.

FINANCIAL RECORD

The financial record has been well kept. Receipts from all sources are recorded in the financial record book furnished by this department, and are distributed under the various captions showing from what sources receipts were derived, and are properly accounted for. Disbursements are properly entered and distributed under the various captions showing for what purposes disbursements were made. Summaries of receipts and summaries of disbursements are complete and extended to the recapitulation, hence, monthly balances are ascertained. BARKLEY AND CHANDLER TOGETHER IN BATTLE FOR PEOPLE

Kentucky's Senators—Barkley and Chandler—by their staunch espousal of extension of the Hatch bill's provisions so as to prevent not only those paid for their work entirely by the federal government but also those paid in part by Uncle Sam from slipping in political campaigns have evoked the acclaim of all common, ordinary citizens who believe that a laborer is worthy of his hire and paid for just that and not employed to "ward-heel" rouse and connive for this candidate or that.

amendments, of covering the full territory. Restricted activities only of those paid altogether by the federal government, and leaving all others to ply their separate wits, unrestricted, the law is partial. Federal officeholders are, in their relations with officeholders paid partly by federal funds and partly by state funds, in the same boat with the feudist who, a prisoner, is disarmed while his enemies lie in wait for him, armed to the teeth.

The sense of fair play possessed by the common citizen seeking no particular advantage or subsidy, looking only to his individual rights, dictates that your ordinary man and woman, the rank and file of the nation's voters, approve the fight Kentucky's two Senators are making to extend the Hatch bill a little farther—even if it may never go far enough.

The fact is, Kentucky and every other state should enact "little" Hatch bills so that their own state employees would be required to work only for their wages or salaries and not to spend a great portion of their time in influencing the vote of some good friend or relative or in buying or stealing votes.

True, such a law, universally applied in this country, would destroy political machines, would make it difficult for an officeholder to be re-elected if he did not have popular support. But that's how it should be. Let everybody start from scratch, call upon the voters for their support on the basis of merit.

The ramifications of politics are multitudinous. Politics gives men and women jobs; loses them jobs. Therefore, politics should be removed, as far as possible, from those who have employment under this or that administration, and kept forever away from their successors.

Get this Hatch bill operative throughout the nation, not merely within the ranks of federal employees, and these United States will more nearly approximate the status of a true democracy.

It is admitted that both our Senators have in the past profited from the support of powerful federal and state political machines. But that is no argument that they or anybody else should in the future enjoy such support at the taxpayers' expense.

Now that they are leading the reform movement, those of us who have criticized either or both of them should lend the two Senators every support in this cause.

"THANKS FOR A LOVELY EVENING..."

A new kind of beer retailing is bringing wholesome recreation to millions of Americans!

America's new kind of beer retailer wants to sell good beer, of course... but he is also keenly aware of his social responsibility to the community. He makes sure that his place is clean and inviting—and scrupulously free of anti-social influences of any kind.

The Brewing Industry wants all of beer's retailers to be of this type. We do not want any other kind. And we are taking

action to eliminate any abuses in beer retailing that may occur.

We have instituted a new plan... now in effect in a few states and being extended as rapidly as possible... to protect your right to drink good beer in decent surroundings. May we tell you about it... in an interesting free booklet? Write: United Brewers Industrial Foundation, 19 East 40th Street, New York, N. Y.

Young Democrats Asked To Fight Un-Americanism

Young Democrats of eight Eastern Kentucky counties, at a banquet sponsored by the "The Grove" near Pikeville, Ky., on Tuesday, pledged their support to a statewide drive against Un-Americanism.

W. H. Crowder, Jr., president of the state organization, introduced the motion.

Fred G. Francis, young Prestonsburg attorney, acted as district chairman, and Commonwealth's Attorney J. E. Childers, Pikeville, was master of ceremonies. A crowd estimated at 500 attended.

John R. Neff, secretary of the Young Democratic Clubs of America, and Mr. Crowder addressed the gathering. Mr. Crowder urged those present to "teach the principles of the Democratic party to the voters of the mighty changes we have made, of the good we have done."

Mr. Neff pointed to Thomas Jefferson, founder of the party, as America's first young Democrat. "Jefferson," he said, "was Governor of Virginia at 30, and drafted the Declaration of Independence when he was only 33."

Dan Talbot, Kentucky commissioner of finance, gave interesting sidelights on the state administration, its operations and its problems, and paid high tribute to Zach Justice, highway commissioner from this district.

Highway Commissioner Justice pledged fealty to the party, and praising honesty in public life, said: "Old Zach has his enemies and his 'beraps; Zach may go to hell, but if he does, it won't be for stealing."

Court of Appeals Sets Aside 'Pen' Sentences

Three-year reformatory sentences of the Pike circuit court on Joe Coleman and Emma Wilson, charged with murder in the death of Kathleen Francis September 7, 1938, were set aside by the Court of Appeals Friday.

"The court held the circumstantial evidence presented by the prosecution failed to sustain its charge that Miss Francis was beaten to death on a highway after a drinking party."

The defendants who will get a new trial, contended Miss Francis was struck by an automobile.

Miss Francis was killed a few hours after leaving Prestonsburg, where she had resided.

Christian county farmers sold high-grade heifers and bulls for \$100 to \$175 each and made a good profit.

In Todd county where there is considerable interest in permanent pastures, grass-legume mixtures are being seeded.

The Floyd County Times brings you news of your county each week—only \$150 for a full year.

Pike County Youths Given Life Terms On \$1.20 Theft

Pikeville—The alleged theft of \$1.20 which is reported to have been the loot in an armed robbery on Marrowbone Creek just before Christmas resulted in the sentence of two youths to life terms in the state penitentiary when they were tried in the Pike circuit court Tuesday.

The jury returned the verdict at 8 o'clock Tuesday night after deliberating five hours. John Robinson and Russell Rowe, both youthful residents of the Marrowbone section, are today held in the Pike county jail awaiting transfer to the state penitentiary after hearing the verdict.

According to testimony introduced by the Commonwealth, Robinson and Rowe made their unprofitable debut in crime by slugging and holding up at the point of a pistol Elsie Mullins last December. Mullins testified that Robinson struck him over the head with the pistol then drew his weapon on him while Rowe went through his pockets and took \$1.20. It was also claimed the defendants struck Mrs. Mullins.

Robinson and Rowe denied taking the money and stated that they and Mullins had been drinking and the three of them engaged in a fight.

tal number of votes cast for the old-age assistance, those two liberal votes cast for it by Mike and 'Aunt Kate.

Give a fool of a half-pint the last inch and he'll get the "Last Mile."

BY OX-TEAM AND TAXI

"We took a fancy to the kid's method of transporting relief commodities from the warehouse here Wednesday. He loaded his foodstuffs into a small wagon to which was hitched a yoke of yearling oxen as like as two peas in a pod.

At the same time another commodity client, a woman, was asking us to call a taxi to take her and two others home.

RED DISGRACE

What this county needs is more old-fashioned "stake-and-ride" rail fences.

Then folks would be more interested in fighting forest fires. These wire fences we have, nowadays, seem to have killed that spirit of neighborliness that existed years ago when a break of a fire was the occasion for neighbors to get together to curb spread of the flames to those rail fences which had been constructed at the cost of much hard labor with wedge, glut and mail.

Sunday afternoon, late, driving from Bova to Prestonsburg, we passed a few farms on which the red disgrace of woods and fields afire did not flame. And not a soul could be seen doing anything to check the flames and the resultant losses in young timber and wildlife. Everybody seemed to be waiting for rain.

All except one man. He was setting a "sage grass" hillside afire.

"MOST ECONOMICAL CAR WE EVER OWNED"

YIP, PONTIAC is a big car—big, but not big enough to be called a big car. It's big enough to be called a big car.

Pontiac owners in all parts of the country tell us in glowing terms that Pontiac is the most economical car in every way—gas, oil, upkeep and freedom from trouble—they have ever owned. And many of these owners used to drive small cars!

Where else can you get a car, with all the advantages only a big car can offer, that is just as easy to buy and just as economical to own as a small car? See Your Pontiac dealer today!

L. Waterfield was probably the profoundest bit of legislation in behalf of the human family to be written since the inditing of the Magna Carta. Providing for examination and licensing garbage collectors, the proposed act would create a State Board of Garbage Examiners (to examine the garbages, or the collectors, Ed.) composed of five men, all of whom must be experts with at least five years' practical experience in the "profession."

The license fee for the first year for garbage collectors, this legislative masterpiece provides, shall be \$25, then an annual fee of \$5 shall be charged. Then, one who has passed the rigid examination to be given for the right to pause, sniff at, explore, scavenge, scrape, load, haul away and dispose of garbage, the collector is enjoined to distribute, regularly and equitably, the said garbage among owners of hogs for the purpose of feeding them—the hogs.

Such collectors may for their services charge a family not more than four \$1 a week; a family of more than four but less than 10, \$3 a week. If there are more than 10 in your family, the work would be done in a charge—"to encourage and stimulate increase of population."

But you bachelors and old maids—ah, your garbage-collector's going to eat you. If this bill is enacted, A cool \$8 a week—"to encourage matrimony," according to the bill.

And the penalty for collecting or disposing of garbage without first procuring a license or permit to do so—now that's sumptuous. We quote: "Any person, partnership, corporation or association collecting or disposing of garbage without having first obtained a license or permit shall be guilty of a misdemeanor; PUNISHABLE BY BEING REQUIRED TO EAT THE GARBAGE" (the capitalists are cured).

Or, if you've already had your breakfast, you can get out of eating the garbage by paying a fine not exceeding \$10.
