This Town-- That World

Since the Indians have persistently refused to have the country back, some of its sportsmen decided to compromise by turning it over to the Reds.

Bands are quick capable of tooting their own horns, but this column would trumpet this fact, anyhow:
School bands mean more to Floyd county's schools and communities than many folks realize. And they deserve the support of these communities. During the basketball tournament this week, Mrs. O. C. Hall and her Prestonsburg school band will be striving to raise money to buy instruments and other necessities. Save that money, and don't risk betting when you shouldn't and give it to the band.

AS OF TODAY
This item should be dated; for as it is being written every sound and even the vagrant breeze speak of Spring. But before the sun and the print show may be falling like European governments.

Anyway, it's evident and I wouldn't have written this "evening" like that, were the season not in the blood and the days of howling winds and birds come east far away. Come, now, the interest in the present, but swelling to burst, and a general awakening of nature. Fishermen eye the river, wondering if the bass will strike. Boys dress off their gloves and rubber-armed youngsters start dusting off ladders. Those trout fishermen of the ponds, the Spring Breeze set up a mysterious pattern that at any other season would reap the nerves to the quick but which now recall a night, years ago, when one sleep alone in a boy in a farmhouse and was almost-but not quite, undisturbed--frustrated with not a sound in all creation but a distant cow lifting her voice to bark to come and get it, she couldn't throw it out--that faint sound and the whispering down next the creek.

"We on the hillside... look's on the dew."
This is in the mood. I even lean my old editors to spring poetry; that, base of ordinary, the world over. Ah, yes, to Spring, when a young man's serious light turns and an old man's fancy turns and gives him a cold and glassy stare.

A BIT OF FLOTSAM
The recent flood deposited a murder mystery right in the lap of West Virginia. It was, they say, a mystery. It was in the Ex-Mayor's backyard.

During the high water, the former official discovered, one morning, a coffin containing a skeleton on his premises. Followed a hurry call for the chief of police, a mystery case, a hurried plane and the County Judge was called. The coroner and a huge crowd soon joined the officials before the open coffin.

What to do? Would the Governor or call in a detective? Had the water robbed some graveyard of a body given decent and reverent burial? Were those the bones of some unfortunate who had been murdered, hidden in secret and now brought to the gaze of man by a force of nature? Speculation did not solve the mystery, however, and officials were considering re-burial of the "re-mains" and writing the matter off as an unsolved mystery.

At that moment, however, a young lad elbowed his way through the crowd, pointed at the coffin and said contents, then announced he could make positive identification of the corpse.

"That's Jerry Amick's dog!" he exclaimed the murder-myst.

It developed that Amick's favorite dog had died and that the dog had charged the boy with the solemn duty of consigning Tug to soil worthy of his dust. And the boy, with the dog in tow, had chanted upon an old coffin used in initiation rites by the Knights of Pythias at West Liberty, years ago, but later relegated to the junk pile in a barn adjacent on down the job right, the youngster dumped the body into the coffin, carried both to a convenient and dank and performed the obsequies.

There deceased rested until the flood came along and carried him off. (See Story No. 1, Page 3)

HALE AUTHOR OF FIVE BILLS

On Fish, Game; Floyd Representatives Seek To Legalize Cockpits

Five bills, all pertaining to the Division of Game and Fish, were introduced in the General Assembly Monday by Henry C. Hale, of Blue River.

One of the five bills would prohibit the use of the Division's funds for sportsmen's clubs in printing or helping in the printing of any magazine. The other four bills would:

1. Prohibit employment by the Division of more than one person from the same family employment of any one related by blood or marriage to the director or any commissioner of the division, and employment of any state agent or of an immediate dependent member of the family of the game and fish director, Kentucky.
2. Bar game and fish commissioners, officials and employees having any interest in any contract, purchase or sale of the division.
3. Prohibit giving away, selling, leasing or trading of any game, fish, or any other property of the division, and require that such things be used solely to restore wild life in Kentucky.
4. Require that all licenses the division issues become effective July 1, instead of January 1.

A bill introduced Tuesday by Representative John M. Stumbo, of McDowell, Henry C. Hale, Blue River, and R. B. Collins, of Letcher county, would legalize chicken fighting and cockpits in any county in the state, plus 15 per cent of the total admission charge and an additional 15 per cent tax on the total of all bets won, to be paid to the county in which the cockpits are held.

HOLD SUSPECT IN SLAYING

Man Believed To Be Stephens Is Jailed In Kermitt Shooting

A man believed to be Bill Henry Stephens, of Middle Creek, near West Prestonsburg, who was wanted in the slaying at Kermitt, Ky., late this afternoon, Friday, June 24, 24-year-old war veteran, was being held in jail at Williamson, W. Va., today.

West Virginia officials arrested the suspect at Naugatuck, W. Va., eight miles from the scene of the shooting. Stephens' description they gave of their prisoner--a man 5 feet 10 inches tall, with dark hair and wearing a white polo shirt--tallied with the man said, Stephens' appearance.

Grover Morris Allen, of West Prestonsburg, who accompanied Stephens in a motorcade driven by Junior Stanley from here to Kermitt, told police that Stephens was handling a pistol when it was discharged as they sat in a hotel in Kermitt, Ky. Stephens was arrested at a restaurant. The bullet struck Kier's son, Eddie, in the region of the heart, and he died within 20 minutes.

Allen and Stanley were held in "re-mains" and writing the matter off as an unsolved mystery.

At that moment, however, a young lad elbowed his way through the crowd, pointed at the coffin and said contents, then announced he could make positive identification of the corpse.

JAIL HOWELL IN SLAYING

Kiser, War Veteran, Shotgun Blast Victim On Dry Creek Saturday

Sherman Howell, 23 years old, was arrested Saturday by Kermitt police who charged the boy with the solemn duty of consigning Tug to soil worthy of his dust. And the boy, with the dog in tow, had chanted upon an old coffin used in initiation rites by the Knights of Pythias at West Liberty, years ago, but later relegated to the junk pile in a barn adjacent on down the job right, the youngster dumped the body into the coffin, carried both to a convenient and dank and performed the obsequies.

FLOYD-KNOTT DELEGATION FIGHTS BILL

State Senate Votes Bill to Re-District, Separating Counties

A delegation from Floyd and Knott counties was in Frankfort this week looking for a judicial redistricting plan which would, among other district changes, cut Knott away from Floyd and create new districts with Floyd and Martin counties composing the 24th judicial district and Knott and Magoffin the 39th.

The redistricting bill, introduced by Senator O. M. Lyons, Morehead Democrat, originated in this section as independent districts are being sought for Pike and Boyd counties. It was said here. The move to cut Pike away from Letcher and Boyd from Lawrence necessitated a re-districting of the judicial circuit.

But Floyd and Knott leaders are strongly opposed to their severance. The delegation now in Frankfort is looking to get the bill amended to back in committee. "We have no objection to separate districts for Pike and Boyd, but we do object to separating Knott and Magoffin counties which are closely allied as neighbors and in almost every respect," a spokesman for the group said. "The new plan," he added, "would cut Knott resident to attend all courts in his district he would have to travel through Floyd county, and under the present plan he would have to pass through Johnson county. It just doesn't make sense."

The Senate voted the measure and laid hope for its veto by the House or by its defeat by Governor Clement.

Other provisions of the Lyons bill would create a new district of Breathitt, Johnson and Wolfe counties, and for the 26th district of Clark, Jessamine and Madison.

Floyd and Knott opponents of the bill agreed on this proposed settlement: Knott would be cut away from Floyd, Floyd and Knott to remain unchanged, Magoffin, Morgan and Kibb would be added to the district, and Perry and Letcher in another.

RYAN AMENDS COURT ACTION

Challenges Akers' Right to Judgement In Amended Petition

An amended petition designed to revive the claim of G. D. Ryan the police jurisdiction of the town of Kermitt, was filed in the Floyd circuit court Saturday by Ryan's attorney, Joe Hobson.

The original Ryan suit, filed last month, was a mandamus action seeking a writ of habeas corpus for Kessie Akers, who was elected Martin police judge, of records of the court, after Governor Earle C. Clement had appointed Mr. Ryan to the office. The appointment followed a petition from members of the "old" board of trustees at Martin that the office had been declared vacant. A petition was dismissed, three weeks ago, by Circuit Judge E. P. Hill, Jr., following a hearing.

The amended petition filed Saturday states that it was the duty of Mr. Akers after his election to the office, to qualify for the office on or before the first day of the month of January, 1946, the petition alleges. It failed to do, since he neither took the oath of office nor did he file with the Governor a name and address. He was appointed on Jan. 14, 1946. "This date was the day when Ryan, with his commission from the Governor, was sworn in and qualified by executing bond and taking the oath of office."

Because of Akers' failure to meet the requirements of the office, the holder, the amended petition sets out, a vacancy in the office existed from the outset. The Board of Trustees was not aware of this situation until Nov. 6, 1947, it is alleged in the petition.

Meat Products Company Leases Dairy Building

Tracy Jones & Sons, Huntington, W. Va., wholesale meat distributors, have leased the Blackburn Dairy on U.S. 23, Little Paint Creek, as a storage and census distribution point, it was announced this week.

The firm, which has served grocers and meat markets of the area for 25 years, made the move with a view to giving quicker and better service to this section. Mr. Jones said. The Little Paint location was chosen because refrigeration was almost installed there.

The firm at its Little Paint plant now employs eight men.

SMITH WEBB, TRAIN VICTIM

Miner's Body Is Found Near McDowell Station Hours After Death

Body of Smith Webb, 31-year-old miner, was found Tuesday morning along the railroad tracks at McDowell, where he was believed to have been killed by a train during the preceding night.

Although two youths admitted having seen him lying beside the tracks, around 10 o'clock Monday night, they did not investigate, fearing, they said, court involvement similar to that following a death in the vicinity by train a few years ago. The body was found about 5 o'clock Tuesday morning, by Bob Eble, Dr. Wright, John King, and who were en route to work.

A jury empaneled by Coroner Brady Shepherd returned a verdict of death by train. It was said Webb had left home from work to get medicine for a heart condition. Both legs were severed and were found inside the rails. Remainder of the body, marked unmarked by outside the rails. Contents of his pockets were found intact and there was no hint of foul play.

The body was found at Lawrence county, surviving as his widow, Mrs. Elizabeth Webb, one child, Mrs. Sallie Holbrook, of McDowell, four brothers, Ned, Bird and Webb, all of Lawrence county, Ed Webb, of Ashland, and one sister, Mrs. Maggie Marshall, of Ohio.

Funeral rites were conducted from the McDowell high school auditorium today (Thursday), the Rev. G. Wright Johnson, pastor, and Vernon Hall officiating. Burial in the Lucy Hall cemetery there was directed by the Arnold Funeral Home.

CAT TOURNAMENT STOCK JUMPS

With Win over Hindman, Betsy Layne and Martin Open Net Meet Tonight

If their 42-40 victory here last Friday night over Pearl County heralded Hindman team is an indication of their true form, the Prestonsburg Black Cats, for all their inconsistency during the season, are a team to be watched during the starting basketball tournament being held here tonight.

The Cats got grimly all the way in their upset of Hindman, and, with a 42-40 win over Hindman, looked every inch a contender for district honors. They rate with Dr. Liktenberg, however, a few points below the top teams.

Last Friday night's game was the first of the season to draw a large crowd here. The gym was night-packed. Betsy Layne and Martin district tournament off tonight, and Friday afternoon will see the meeting of the opposing brackets. An encounter which is expected to make Friday night, Prestonsburg and Wheelwright, in the opposing brackets. Another fans are looking forward to the tournament as one of the best in years. While no team in the county is rated on a par with Wayne's fine aggregation of last year, not more than one of the nine entered can be counted as a certain.

COAL COMPANY EXPANDS AID

Adds Third U. of K. Scholarship, Drops High School Help

Discontinuance of four high school scholarships and expansion of the Princess Elizabeth Coal Company's college scholarship program for the coming year, was announced last week by the company president, David L. Francis.

The high school scholarships which were initiated two years ago because youngsters in Stuart-Robinson high school as scholarship students were taking a course in home economics.

Three four-year scholarships, instead of two, will be offered for study at the University of Kentucky, and two for girls for two years each at Pikeville College.

The two University of Kentucky scholarships in the past were earmarked for the federal and state vocational engineering. But in the coming year, two of the three successful applicants may apply the value of the scholarships--\$400 each--to work for degree in mining, electrical, or mechanical engineering.

The third will go to some Floyd or Johnson county student who need not be the son of an employee. He will have the option of studying one of these phases of engineering or of taking a course in teaching or religious work.

The Pikeville College scholarships, for \$375 each, are intended for daughters of employees. But if no qualified applicants from this source should be found, Francis said the company would consider offering one to a student from any of the two counties having a good academic record.

Scholarship recipients will be determined by a general manager, Walter Crawford, and assistant director Max C. Burns, with the aid of principals and teachers after they review all applications.

OPERATORS ARE NERVOUS

As Lewis Bides Time In Calling His Miners In Pension Difference

John L. Lewis bids the soft coal industry an age again.

The coal producers are wondering whether the United Mine Workers' president means to turn his pension dispute into a full-blown contract dispute around April 1.

If he does, he must give the operators some 30 days notice of his intention to strike. The operators, displaying customary optimism, were saying privately they think Lewis would do nothing immediately upon his return from Florida. Some thought Lewis might give notice to end the contract at the close of a week or pay period like April 3 or April 10, instead of March 31, which comes at midnight.

Or he could permit the contract to continue until its expiration date, June 30, building up pressure meanwhile. But his pension plan and possible wage demands.

Lewis has proposed a \$100 monthly pension for miners 60 years of age or older who have dug coal for 25 years. By union estimate this would cost \$24,000,000 a year. The 10-cent royalty per ton proposed by his contract of last July is yielding about \$60,000,000 a year for the union's welfare and retirement fund.

The operators say the plan Lewis has in mind, coupled with other benefits planned under the contract, would cost the coal valley more than \$100 million a year. Some operators also say they require another 40 cent per ton royalty.

The UMW leader sent letters to the operators Friday 2 notifying them that a dispute exists over the pension plan. He said that the operators require 60 days' notice to the club party if a union, or employer, intends to terminate a contract.

Subsequent investigation disclosed we learn from West Liberty, that the coffin was used by the Knights of Pythias to carry the body out of candidates for initiation.

THE STATISTICS

It is generally agreed that daily newspaper production is a marvel of efficiency and speed. In the same breath, most folks commiserate with the weekly newspaper on its slowness—why, getting out one paper a week should be mere child's play. And why in tarnation don't you get it out on the dot?

Here are some figures we found interesting. Ralph Pulitzer, publisher, says:

"In a big newspaper office, in a night, 160,000 words are written by about 2,000 different contributors, reporters and correspondents; some news comes in by wire and some by telephone."

That's not all Mr. Pulitzer said in pointing out the efficiency of the daily newspaper. But it's enough for us to enjoy giving some comparative figures.

An edition of The Floyd County Times, picked at random (it would be at random, if picked from my desk), shows that Page 1 contained approximately 5,000 words, of which about 1,470 words were not less than 4,000 plus headlines, etcetera. On through the paper there are other stories adding up to 2,800 words picked out on this typewriter. All contributed copy was edited and proof-read by one man, who reads proofs on all sides.

That figures up to this: In a five-day week I'm bating out an average of 1,470 words a day, while those big city fellows have been soldering on the job with a puny 80 words a night. Could these figures be wrong?—(maybe they sleep nights, like we weekly editors do.)

After reading these figures ordered if I'm not surprised that we ever get a paper out!

PERSONAL COLUMN

The class in short-story writing will please come to order. The Register-News, Mt. Vernon, Ill., attempts to give you (you a ready-made plot from its classified ad column. Hearken:

"SINGLE MAN needs unmarried housekeeper. Must be 35-36 and live in neighborhood of twenty-two hundred block College. Position open indefinitely, but would like to have filled by March 1st, when house will be ready. Must consider matrimony as ample compensation. Other qualifications—must have freckles and not too easy to get along with. Call or write David C. Arthurs, Mt. Vernon, Ill."

"There! Let the imagination ramble, was the young lady of his choice held incommunicado by a stern parent who didn't approve of her swain? Or had she vowed not to speak to him again, not to read his letters, not to answer the telephone, not to think even of saying, 'I do'?" Anyway, there's a piquancy about this ad that makes material for the lighter, more delightful sort of love story the magazines like—if you can write it.

MIDDLE CREEK WOMAN, BELIEVED OLDEST IN EASTERN KENTUCKY, DIES SATURDAY

Mrs. Elizabeth Nannie Shepherd, believed to have been Eastern Kentucky's oldest resident, died Saturday at her home on Open Fork of Middle Creek, near David. Family records placed her age at 104.

Born in Lee county, Va., she came to this county with her parents at the age of 18. She said that once she had lived on Middle Creek and she seldom left her home at the foot of the mountain on Open Fork. She remained active until a few months ago. Accustomed only to traveling foot or horseback, she rode, side-saddle style, and until a year ago, could mount a horse "from a slightly low place." She was a devout member of the Regular Baptist Church.

Mrs. Shepherd was the widow of "Paddy" Brock Shepherd, well-known Middle Creek man. She is survived by three sons and four daughters: Mrs. Jim Allen, Prestonsburg, Dever, Ore. Lee, Abe, Eric, Melie and Mrs. Connie Joseph, all of David and vicinity.

Funeral rites were conducted Sunday afternoon from the home, the Rev. J. E. Durham officiating and burial in the family cemetery was under direction of the Arnold Funeral Home.

He was a son of the late Bill and Coney Goddman Prater. He was twice married—first, to Della Hoover, and of this union one son, Billy, of West Virginia, survives; next, to Margaret Gibson, and of this marriage one son and one daughter survive. Adis Prater and Mrs. Della Green, both of West Prestonsburg. Two brothers, Riley, of Blue River, and Kelly, of Water Gap, and one sister, Mrs. Della Roe, of Dwell, also survive.

The funeral was conducted Monday from the Christian Church at Dwell, the Rev. G. R. Fannin officiating. Burial was made at Dwell under direction of the Arnold Funeral Home.

FAMILY DINNER

Mrs. Mary D. Allen entertained a family group to dinner Friday evening, complimenting her daughter, Mrs. Wm. H. Cope, and Mrs. Cope of Toronto, Canada, Mayor and Mrs. E. P. Arnold, Dr. and Mrs. C. L. Huttinger, Mary Catherine Huttinger, Mrs. Cass P. Ligon.

Prospective Teachers:

Any person who is expecting to teach in Floyd county during the next school term should file application with the Superintendent and Board of Education now. Application blanks will be mailed on request. (One desiring to teach in a rural school should contact the trustee for nomination.)

Applications should set out fully the qualifications of the teacher, giving credits already earned and those to be earned before the opening of the school term.

High school applicants should indicate all credits in which they are capable of teaching. Applications should not be made unless the teacher is reasonably certain that she wants to teach, and applications should be withdrawn at once if applicant decides not to teach.

Brother of Mrs. Hunt Believed River Victim

Marlin Wellman, 37 years old, traveling tinnerman for the Ashland Oil & Refining Company, and a brother of Mrs. Lorain Hunt, of Betsy Layne, is believed by his employers to have lost his life Tuesday morning while pumping gasoline from a barge at the company's unloading dock at Covington.

He was last seen at 5 a.m., and it is feared he fell into the river around 5:30 a.m. Company engineers said a search was in progress to determine if his body is in the river.

Mr. Wellman served overseas in the army, enlisting on March 10, 1942 at Logan, W. Va., not being discharged on October 3, 1946, the rank of corporal. He was born Sept. 19, 1902, at Ashland, Ky., a son of Mr. and Mrs. Worley Wellman. He was educated in Floyd county schools.

A WISE JUDGE SAYS:

"I became judge of the Juvenile and Domestic Relations Court on June 1, 1939. Since that time I have tried approximately 8,000 boys and girls under 17 years of age for violating the law. Of that number, only 42 were regular in attendance in Sunday school or Church. Of course others of the children had at one time or another gone to Sunday school, but many of them had not. Another unusual fact is that of these children there has not been a child in court whose father or mother attended Sunday school regularly."

KAISER-FRAZER IS PRODUCING A CAR A MINUTE
—AND WE ARE DELIVERING NOW!
Yes, it's being done at Willow Run! The giant car-bomber plant is now producing better than a car a minute! Every working day provides an average of 700 more automobiles for a car-hungry world. And what wonderful new cars they are!
Letters pour in to the factory every day addressed to Henry J. Kaiser and Joseph W. Frazer—from those among our more than 70,000 owners who feel that they must express their enthusiasm. These owners, who have driven the KAISER and the FRAZER and the luxurious new FRAZER Manhattan, hundreds of millions of miles in every part of the world, emphasize one outstanding feature above all others—the extraordinary smooth, gliding ride! They say there never was a ride like this! Read typical owner comments below.
We invite you to come in and inspect these 100% postwar cars and—take a ride. You will want one! And you can have one! For we are getting our share of Willow Run's increased output—and are delivering now!
—THE KAISER • THE FRAZER • THE FRAZER MANHATTAN
HERE IS WHAT KAISER AND FRAZER OWNERS SAY ABOUT THESE GREAT, NEW, POSTWAR CARS—
A Chicago Office Worker Writes—"On a 4-day, 1212-mile trip around Lake Michigan, we averaged 18 1/2 miles to the gallon... our new KAISER is economical to operate and performs beautifully. We thoroughly enjoy it."
A New Britain, Conn. Salesman Writes—"My KAISER's body styling is the finest I have ever seen. And its power, maneuverability and smooth riding never cease to amaze me. Performance is magnificent."

HAVE FAITH IN GOD

By the help of God, by prayer and faith, and obedience and works of faith put in action, God has so richly blessed me by letter writing I wish to call on all praying people to pray earnestly for the State Highway Division for improvement on the county roads and to pray for Sparks Brothers Bus Company for making it possible for the handicapped motorist to travel to be permitted to go in and out to church.

As for me, I wish to pray a special prayer. I wrote letters and told visions of seeing a bus coming to East McDowell and I thank God, Feb. 13, 1948 a driver, James Lafayette, will always remember that day.

The McDowell people call the bus that runs the 7:30 morning run "The Eva Special" and on Feb. 13, 1948, it carried Eva Meade Hall and a mixed multitude facing hardships, going to Prestonsburg to be tried in circuit court for writing a letter to Lee Frasure, of McDowell, Ky. My only weapon was the Holy Bible and our nation's records and his renters. It certainly was a victorious day.

Before the bus began running up Left Beaver I had to walk four miles each way to get to the church of my choice. Since that time, the bus has been running up Left Beaver and I have been fortunate to attend church regularly in different places and am known in the New Salem Association and Floyd county court as a woman who holds on to her Bible and obeys God rather than man at all times, regardless of losses or crosses.

Sincerely and prayerfully,
EVA MEADE HALL

Resolutions of Respect

In Memory of
BROTHER M. L. LAWSON
Who died Feb. 18, 1948

Once again death has summoned a Brother Old Fellow, and the golden gateway to the Eternal City has opened to welcome him home. He has completed his work in the ministering to the wants of the afflicted in shedding light into darkened souls and in bringing joy into the places of misery, and as his reward has received the plaudit "well done" from the Supreme Master.

And whereas, the all wise and merciful Master of the universe has called our beloved and respected Brother home, and he having been a true and faithful member of our beloved Order.

Resolved, That the chapter of Prestonsburg Lodge No. 233, I.O.O.F. of Prestonsburg, in testimony of her loss, be draped in mourning for thirty days and that we tender to the family of our deceased Brother our sincere condolence in their deep affliction, and that a copy of these resolutions be sent to the family.

Today Your Pharmacist Drops A Few Facts About ...

SULFADIAZINE

In 1945, medical men found they could control cholera with Sulfadiazine, blood plasma and salt solution. Before this discovery nearly half of the cholera victims died. Now, with this new sulfa treatment, it appears that most of those afflicted will be saved. Slowly science is finding ways to conquer physical ailments that remain to plague humanity.

Attorney-General Says Local Option Bill Has No Joker Clause in It

Attorney General A. E. Funk said Friday "There is no joker in the local-option bill" passed last week by the General Assembly.

This view was shared by Robert K. Cullen, chief statutes reviewer. Cullen said he had made a thorough study of the local-option liquor bill and was "convinced there's no joker in it."

Senator Ira W. See, Louisa Republican, charged Wednesday he had found a "joker" in the measure which would make prohibition unenforceable in counties containing no cities of the first four classes.

The bill is now on Governor Ernie C. Clement's desk. He has until midnight next Wednesday to sign or veto it. If he takes no action it will go into operation June 19.

Backed by the wets, the bill breaks down the county-unit system of local option. It would enable cities of the first four population classes to vote wet or dry independently of their counties. There are 52 counties which have such cities. There are 68 counties with no cities of the first four classes.

The measure, House Bill 197, repeals a section of the present wet-dry law. Senator See claimed repeal of this section would prevent any of the 68 rural counties from enforcing prohibition if they should vote dry.

But Funk and Cullen took an opposite view. Funk told reporters: "House Bill 197 in no way affects or makes changes in the enforcement provisions of local option in any counties which do not contain cities of the first four classes."

If a court should construe the bill did prevent such enforcement, Funk said he thought the entire bill would be unconstitutional because its title fails to mention such a provision.

Funk said repeal of the section, which 56e brands as the "joker" in the bill, would not affect the city-less counties. "There are other sections of the law which provide for enforcement when any territory votes dry," he added.

Cullen said that if the language of the bill is "taken literally, there is nothing to prevent a precinct of a fifth or sixth-class city, from voting wet in a dry county which doesn't have a city of the first four classes in it."

"But" Cullen continued, "a court certainly would construe the new bill to mean that the only place in any dry county you could hold an election would be in cities of the first four classes."

"If a county does not have such a city, then no other precinct or district in that dry county could vote wet until the entire county voted wet."

"Any other construction would render the law meaningless," Cullen added.
