Mr. and Mrs. Starling Sammons, Jr., and children visited Mr. Sammons' parents on Jones Fork Sunday.

A week ago Sunday, the following attended a baseball game in Cincinnati: Ray Long and son, Paul, John Field, John Rath, Bill Hensel and son, Walter, George Hart, Marcus Gibson, Joe Hopper and Dothan Cook.

Doyle Cook, who is attending college, spent a week-end recently with his parents, Mr. and Mrs. C. L. Cook.

Mr. and Mrs. Paul Hinds are visiting her mother, Mrs. Charles H. Smith, of Jackson.

Betty Lou Coleman and Ruby Lee Kennard were the overnight guests of Wilma Hinds Saturday.

Frankie Webb is visiting friends and relatives at Heller this week.

We were happy to have the Rev. Jack Early as our guest minister in the Methodist Church last Sunday.

Mrs. Walter Blevins and Mrs. Charles Huff, of Chesapeake, Ohio, were houseguests of their sister, Mrs. R. L. Danieles, and their niece, Mrs. Willard Castle, this week.

Mr. and Mrs. Ray Gibson and children visited North Bridge, Ky., last week-end.

Charles Estill Meade is spending this week with his grandmother, Mrs. Miranda Adams, of Paintsville. Mr. and Mrs. Clifford Whitten are also her guests.

Mr. and Mrs. Earl Brannham and son, Buddy Tom, spent the week-end in Neon.

The young minister, Jimmy Wells, addressed the Methodist Youth Fellowship in their regular meeting Sunday night.

Mr. and Mrs. Willard Castle and children have returned from their visit to St. Louis.

Meekie Webb, who has been ill, has recovered.

The Methodist Wildcats, played the Prestonsburg team recently. Wayland won.

Joy Carver is spending a few days with Mrs. Mabel Vanhoose, of Paintsville.

Mrs. Ray Schrader, of Prestonsburg, has been visiting her 81-year-old mother at Logan, W. Va. Bobby Jo and Jimmie Castle, Jr., visited her also. All enjoyed being with her. She is a great-grandmother of the Castle boys.

in person and by telephone from prominent citizens asking him to help the defendant out of his predicament. This he cited as another hindrance to law and order.

"I can go out and buy whiskey from these bootleggers and you can't either," he reminded the dry forces. "So it takes work from all of us to get evidence from somebody who can buy it or see it bought."

The League also discussed a rumor to the effect that a petition asking a local option election in Prestonsburg had been circulated. Judge Davidson replied that he had heard of no such move.

The Rev. C. C. Meade, of Betsy Layne, presided at the meeting.

Edward P. HILL

FOR CONGRESS

We submit to the good citizens of Floyd county the following facts showing why it is to the interest of all men and women who want good government to vote for Edward P. Hill for Congress:

1. He merits your support, not because of the endorsement of any faction or long list of managers or any individual, but solely on his past record as an honest public servant. As County Judge of Floyd county eight years, he reduced county debts by more than \$100,000 and placed the county on a PAY-AS-YOU-GO system. As Circuit Judge of the 1st Judicial district he is known to be fearless and entirely impartial in his trial of cases. He has been reversed only twice.
2. His integrity and honesty cannot be questioned. That he has at all times conducted the affairs of county and district with fairness, honesty and capability cannot be truthfully challenged.
3. When elected to Congress he will devote his entire time to the affairs of this office. His only desire is to serve the will of the people of the Seventh Congressional District to the best interests of all.
4. When elected he pledges to work for adjusted freight rates on coal, canalization of the Big Sandy river, Federal Aid to Education, the repeal of the Taft-Hartley Act and the enactment of a law equitable to both Labor and Management, and legislation favorable to Veterans. He will be ever studious of National and International Affairs and changing world conditions.
5. He can and DOES think for himself, uninfluenced by any group or individual. He is YOUR CANDIDATE, unlike Mr. Perkins who was trotted out by the Governor on the last minute for filing under the pretext that he was a veteran, when two of the candidates already filed were veterans, one of them of two wars. You elected the Governor last year, but as free-thinking, red-blooded Americans you can but oppose the high-handed method he is trying to use in filling all other state and district offices with hand-picked men whom he controls. You are opposed to his returning to their home counties state employees from Frankfort, at taxpayers' expense, to work in the hand-picked candidates' interest. This is not the political atmosphere you want for your sons and daughters. These questions are vital to you and to the welfare of our great state.
6. THINK IT OVER. Do not be coerced or misled by promises that will not be fulfilled. Carefully consider the qualifications of all the candidates. Inquire into their past records, their integrity. You will select a candidate who has never failed to win by a large majority. You will select November's Sure Winner — EDWARD P. HILL, CONGRESSMAN, 7th DISTRICT.

KENTUCKY ON THE MARCH

By EWING GALLOWAY

Lead Sensing, editor of the Fulton Leader, describes the Jackson Purchase as a sort of displaced region politically.

"Because of our one-party system here, we are taken for granted and treated as poor relations by the Democrats when they are in office and cast outside the family circle when the Republicans control the state."

Pulaski's population is 7,000, and the state line splits it in two. Kentucky has about 4,000 to Tennessee's 3,000 and, as Mr. Sensing puts it, the thinking of the people in both communities is decidedly Kentucky. Editor Sensing thinks practically all the 3,000 south of the line would consider themselves Kentuckians if the tax laws of this state were as good as Tennessee's and our state authorities gave the Purchase an even break with districts where neither political party is dead certain about election returns.

Here are some of the things recently done or definitely cooking in Fulton:

A new city council has started actual construction of a new \$200,000 water system.

A \$40,000 flood control job to prevent damage by flash floods of a creek that runs through the heart of the city.

A \$250,000 incinerator, built with capital furnished by enterprising local business men, is nearing completion. This is to help shipping on the Illinois Central Railroad and, indirectly, benefit Fulton. I.C. trains run out of the city in five directions.

The city council has gone to work on a plan to bring TVA power to Fulton with a view to inducing new industries to move in.

Pulaski county claims the largest Farm Bureau organization in the state.

The city is proud of the fact that it is the smallest one in organized Kentucky, nearly all the population turns out when the Railroaders (Kitty League) are playing on the home grounds.

Mr. Sensing is telling you about Fulton's school system in his own words:

"Our greatest single problem at the present time is the deplorable condition of our schools. The only reason they are open now—and their only hope of re-opening this fall—is in the willingness of our teachers to sacrifice themselves for our youth. There just isn't enough tax money to run our schools properly."

"Under the urging of local citizens our representative in the Legislature introduced and passed a bill both houses a measure to make the city of Fulton a separate district for the purpose of taxation in order that we might raise our own taxes to support our schools. It was merely another case of wanting to stop for ourselves. Unfortunately for us the bill was vetoed by the Governor."

"The revolt against the old 'status quo' is growing. The people of Fulton are not asking for a 'hand' on the part of others to help them with their problems—they are determined to strike out on their own."

One Place No Politics—Highway Rights-of-Way

Public reurement of political posters on highway rights-of-way resulted in a directive to district engineers of the Department of Highways to remove and keep down such advertisements. The directive was signed by C. L. Withers, commissioner of highways.

"All employees of the department are authorized and directed to remove any such posters placed on any Kentucky rights-of-way," the directive stated. "This will be done immediately and continued until all cards are removed."

Commissioner Withers said that "scores of complaints" have been received regarding a variety of advertising posters including political advertisements, auction notices, road side stands and carnival posters "litter up the roadsides" and their erection on rights-of-way is for bidden by law, he added. The policy of the department will be to "take them down as fast as they are put up."

Rare Animals Listed For Showing Here

Little Fiddle Slicks, baby Rhesus monkey which will be seen with Mamie, its mother, at the World-Wide Animal Exhibit here.

The Pan-American Museum and World-Wide Animal Exhibit will be in Prestonsburg on August 4 and 5 and will open its doors from 2 p.m. to 11 p.m.

From the American burro to the Peruvian guanaco, the exhibit includes nearly every type of rare animal found in the six continents. The vanishing longhorn and buffalo, the rare Sami deer and Andean, and the almost unknown Eland are among the animals carried in addition.

As an added attraction the exhibit, the exhibit will offer two extra attractions: Prof. Cogozzo's monkey circus, and Marie O'Day, whose body was found recently in the Great Salt Lake—perfectly preserved following her death several years ago. All species of the animal world will be seen, including many who perform in the monkey circus. Individual stars of the show are Kilroy, a Brahman bull, the world's largest horse, Little Richard, a baby lion from the Yellowstone National Park, and Terrible Terry, a vicious ape captured in Africa.

As an added attraction the exhibit has added to its program clown, the well-known London puppet show, and Romie the magician.

Parents who bring their children will find themselves courteously greeted and unannounced by any advertisement or hawkers, the management promises. There will be a big free outdoor corral filled with animals from many parts of the world.

The army expects to take about 225,000 men in the first year. Later the total will be up to around 900,000. It is up to the army to say when it needs men and how many. The draft service then will provide them. Hershey said that if the army asked for as many as 30,000 in its first call, the draft might have to dip down into the 23-year-olds right at the start. Later, the army plans to take about that many each month.

Hershey said that deferments would be liberal, but added that Selective Service had not yet written regulations governing them.

The date for the beginning of the draft has not been set, but Hershey said last week it probably would be shortly after October 1.

Registration of all men through 25 will begin August 30 and continue through September 18. This will be done by age groups, too, with men 25 signing up first, men 24 next and so on.

The draft head stressed that all men, 18 through 25, must register, including veterans, unless they are on active duty in the armed services.

Hershey's decision to draft men by age group was announced after he had held a four-day conference with members of the House and Senate Armed Services committees, which worked up the draft law.

SOLDIER'S BODY RETURNED TO RISNER

(Continued from Page One)

In the last three days. As of this moment I am green with envy. Maybe I'll fade, though.

Still, I say CH. has nothing whatsoever on Neil Allen, of The 35th County Times' force. In Canada you can go on a lake to catch fish from a boat. On Big Sandy—but to draw the story out a bit.

Last Saturday afternoon, the aforesaid Allen borrowed a neighbor's boat key; object, fishing. The key wouldn't fit, and so the next morning the neighbor went to show him he was fooling with the wrong boat. But the boat key belonged to was almost full of water, so the owner started splashing water out with a paddle.

This bit of action suddenly came to a halt when something went with the length of the boat, turned in the narrow end and swished back to the bow or stern or wherever it started. Anyway, Hager Frasier, the boat-owner, began fishing right there in the boat with his hands—and came up with a 16-inch one-eyed sucker!

No, that isn't all. Neil began boiling water after the other had left in a long loop with his catch. A few minutes later, he came up with a 10-inch fish.

In Canada you catch 'em from a boat. On the Big Sandy you catch 'em in a boat—apart from.

IRENE COLE MEMORIAL BAPTIST CHURCH

our pastor has arranged to preach ten sermons on the general subject of Baptist Doctrines, answering, at least in part, the question, "What Do Baptists Believe and Teach?" These sermons will be given Sunday mornings and nights throughout August.

The topics are as follows:

August 1, A.M.—"GOD'S WORK." What is it? How did we get it? What is its practical value to us? P.M.—"GOD." Where is He? What is He like? Can we know Him? If so, how?

August 8, A.M.—"SINNERS." How did we get this way? What difference does it make? P.M.—"SALVATION." What is salvation? Who cares about salvation? What part does God have in it?

August 15, A.M.—"REGENERATION." What is Regeneration? How does a person obtain it? Can one know when he has it? P.M.—"REPENTANCE AND FAITH." How does one come to repent? How can one get faith? What does faith do?

August 22, A.M.—"HOLINESS." Do Baptists believe in Holiness? How much? Is it well to profess it unless one possesses it? P.M.—"ONCE IN GRACE." What do we mean by "Being in Grace"? Why is this doctrine hated by so many?

August 29, A.M.—"WHICH CHURCH?" Is there any invisible church? Did God make different denominations? Honestly, how can one tell which church is right? P.M.—"CLOSE COMMUNION." What denominations practice it? Is it scriptural? What is the main purpose in close communion in a church? Is it important?

A sincere and scriptural answer will be given to the above questions and to many other questions during these series of sermons. The public is cordially and heartily invited and welcome.

Old-Age Pensioners Promised More Pay

Frankfort, Ky., July 19.—Kentucky old-age pensioners are expected to receive an average of at least \$20 a month, beginning with October. Their checks for June averaged \$17.36. Needy blind and dependent children also are expected to receive more.

The increase will come as a result of increased allotment of funds from the federal government. It has contributed two-thirds of the first \$15 a month given the aged and the blind and half the payments in excess of \$15.

Beginning in October the federal contribution will be increased to three-fourths of the first \$20 a month to the aged and blind and half of any amount over \$20.

Federal payments to dependent children now are two-thirds of the first \$9 a month. That will be increased to three-fourths of the first \$12 and half of all in excess of \$12.

Announcing the June average, Vego E. Barnes, commissioner of economic security, said today it's certain that August and September old-age checks will equal June's.

Average checks for indigent men and women over 65 years old dipped to \$16.50 for April and May from the \$17.35 to \$17.38 average of the first three months of this year.

Unless a dependent puts many more on the public-assistance rolls, the commissioner said, the average will keep up. Barnes commented that in some 30 counties 48.7 per cent of men and women over 65 now draw old-age pensions.

Public assistance reports for June showed \$897,290 paid to 51,701 aged, an average of \$17.36 each; \$508,646 to 34,402 dependent children, an average of \$14.79 a child, or \$36.45 a family, since there are, more than one dependent child to a family, and \$35,010 to 1,800 needy blind, an average of \$19.52 each.

Foundation Set-Up To Study Arthritis And Rheumatism

Chicago, July 26.—The Journal of the American Medical Association said tonight that a new national foundation for arthritis and rheumatism had been formed to provide a center of research and information on the diseases.

The new organization, The Arthritis and Rheumatism Foundation, is headed by Dr. Paul H. Robinson, Tucson.

Holbrook said his group would function in the manner of the American Cancer Society and other national foundations. He said it would include research and fellowships.

OF INTEREST TO VETERANS

Approximately 270,000 veterans of World Wars I and II and peacetime service now residing in Ohio, Michigan and Kentucky are receiving compensation payments for service-connected disabilities incurred in the armed forces. Veterans Administration Branch Office in Columbus, O., reported recently.

Compensation payments for service-connected disabilities range from \$13.80 to \$360 a month, depending upon the degree and type of disability.

VA said the totals in May were: Ohio, \$5,533,956 to 133,376 veterans; Michigan, \$5,784,032 to 89,068 veterans; and Kentucky, \$2,272,115 to 49,787 veterans.

Veterans Administration is helping 6,917 World War II veterans in Ohio, Michigan and Kentucky to finance new business enterprises under provisions of the G.I. Bill.

VA Branch Office officials in Columbus, O., said that up to the end of May, 6,917 veterans had borrowed under the G.I. Bill, \$22,230,650 to finance business projects. VA guaranteed repayment on \$8,932,485 of the total.

In Ohio, 2,377 veterans had borrowed \$8,293,332 to enter business. A total of 2,594 Michigan veterans had borrowed \$10,392,237 for business purposes and in Kentucky 1,836 veterans had negotiated \$3,414,131 in business loans.

VA will guarantee up to \$5,000 on real estate loans or up to \$2,000 on personal property loans, but not to exceed 50 per cent of the total loan. The actual loans are made by financial institutions, not by VA.

QUESTIONS AND ANSWERS

Q. When is National Service Life Insurance considered issued?

A. It is issued when a veteran files to make a payment of premium within 21 days from the date it was due.

Q. I was practically compelled to sign a statement before my discharge that my disability existed prior to discharge. Will this prevent my receiving compensation?

A. Any statement of this nature, according to the G.I. Bill, which you made at discharge is considered null and void. Decision as to service connection of the disability will be made by VA, based on service medical records, and excluding the statement made at time of discharge.

BUCKET JELLY

"As a rule, man's a fool.
When it's hot, he wants it cool;
When it's cool, he wants it hot,
Always wanting what is not.
As a rule, man's a fool."

On the farms around old Fidelity we had an abundance of good food. What we ate every day would today attract attention in any of the best eating places approved by Duncan Hines. Our home-cured meats, our fried chickens, our pies and cakes, our jellies and preserves would today take fancy prices at county or state fairs. So far as I am concerned, I would like to enter for prizes such things as our sorghum molasses, our plain luscious, our hot biscuits. But, like human beings generally, we thought we were poorly fed and longed, like the discontented Hebrews, for the delicacies of Egypt, or just anything but the common fare we had to put up with. Maybe we had just too much good food, anyway; maybe it was not always served as attractively as could have been. But what can you do if you are a housewife and have 10 mouths to feed? With house-keeping and chicken-raising, and keeping the eight children from killing each other, and with loads of week-end company from the other side of the county, and with protracted meetings and their attendant preachers and visitors and dinner on the ground, and so on, who could spread every day a table as if for special company?

With what joy, then, did our children greet some bucket jelly. The stuff, very weak in sugar and tasting like a cypress or cedar bucket, was made once or twice a year at the stores at Fidelity. Father would bring home a bucket, and it would soon evaporate or fly away or something, for we needed into it with month's wide open. With plenty of hot biscuits dripping with butter, we soon stuffed ourselves and got down to the very bottom of the bucket, where the stuff tasted more like cedar berries than jelly. But we liked it and always welcomed the sight of it. And all the time, in preserve stands or in glasses, there were great gobs of Mother's own home-made jelly or preserves, good enough for a king or queen. But that was just to be expected, like food of any kind and clothes and a house or something to buy sugar and coffee at the stores.

In spite of the excellent meats that we cured, we liked to get some of the tasteless, fat, greasy salt bacon that was shipped to the stores. We would now call it seasoning bacon, but in early days it tasted like something else, I suppose the slightly different method of curing it gave it its distinction, but today I must confess that I would not like too much of it.

And so on I could go indefinitely, for these little extras that we bought at the store brought strange new enjoyment to us. The tasteless candy; the watery cabbage that came in big sacks in the winter time had the flavor of nectar and ambrosia to us. We little brats at Fidelity were just plain human beings, with eagerness to do something different from what was expected and demanded of us. Our habits were startlingly like those of people who were or are old and infinitely better educated and more widely traveled than we. If we had been content with the excellent food that we ate daily, we would probably long ago have died and been saluted, because only sailors fail to grumble about good things that are all around us.

"As a rule, man's a fool."

TWO NEGROES HELD

Corbin—Two negro brothers, Wesley Bailey, 21, and Ernest Bailey, 17, were held for grand jury action without bond on charges they broke into an aged white couple's home at Williamsburg and attempted to assault the woman. County Attorney C. B. Upton reported. He said the two were arrested following the attempted attack on Mrs. William Adkins, 67, after breaking the front door of her home. Upton said her husband, 81, was forced to remain in bed while she was dragged into a nearby field. Barking dogs aroused neighbors and the men fled, Upton said.

Utilities Elkhorn To Open New Store At Martin Saturday

Store and offices of the Utilities Elkhorn Coal Company at Martin will open Saturday in new quarters. It was announced this week by T. W. Third, the company's treasurer.

The store is being moved to the former Martin Theatre building, which has been re-modeled throughout to accommodate a store and offices, after 18 years in the Greer building there.

The business will open, K. S. McKinney, general store manager said, with a complete line of wearing apparel as well as the full stock of a modern grocery store and meat market.

An innovation, widely in use elsewhere, is the self-help feature of the grocery department which is intended to facilitate shopping for fruits, vegetables and staple foodstuffs.

The part of the building housing the store proper is 42 by 55 feet, with a large storage room in back. Furnishings and equipment of the store are wholly new and modern. One office in the structure will be that of the main cashier; another, that of the mine superintendent and store manager.

J. M. Hale is manager of the new store.

WED AT NUPTIAL MASS JUNE 5

With a nuptial mass at the church of St. Athanasius, Eileen Elizabeth Wolf, daughter of Mr. and Mrs. John L. Wolf, of West View, Pa., became the bride of Clyde B. Burdett, on Saturday, June 5.

The bride, who was given in marriage by her father, wore a gown of traditional ivory satin, trimmed in Chantilly lace and full court train. Chantilly lace also formed the Juliet cap caught with clusters of orange blossoms, which held in place a double veil of matching tulle. She carried a white prayer book topped with an orchid and showered with asphodels.

Joan Wolf was her sister's maid-of-honor. Her flock was of orange tulle and she carried a colonial

bouquet of yellow roses and daisies. Her bridesmaids were Marilyn Wolf and Carolyn Wolf, twin sisters of the bride and they were gowned alike in mauve tulle and carried colonial bouquets of spring flowers.

The attendants were large bouquets of the same material.

Wade Burdett was best man for his brother and usher were Thomas Williams and Leonard Martine, cousins of the bride.

Breakfast was served at the Pines followed by a reception at the home of the bride.

The groom, a son of Mr. and Mrs. Tom Burdett, of Prestonsburg, was graduated from Prestonsburg high school and saw three years' navy service during World War II.

PARTY FOR VISITOR

Miss Polly Allen held open house at her home on Broadway Monday night to a number of her friends introducing her, housewife and roommate at Lindenwood College, Miss Peggy Hale, Morristown, Tenn. A watermelon feast was enjoyed.

Pruitt, 'Automatic In' For Judge in Pike-co.; 3 in Primary in Knott

An explanation that Pike County Judge Irvin Pruitt is the only candidate for nomination in the August 7 primary and will be nominated automatically was given this week by Assistant Attorney General W. Owen Keller.

J. R. Blankenship, Pike county, wrote recently that Pruitt's name was not on the primary ballots and asked how Democrats could vote for a candidate in November.

Keller suggested they get together and write in the name of some one. But later Keller said the county clerk's office at Pikeville telephoned him that Pruitt was the only candidate in the Democratic primary.

Thus he automatically gets the nomination without having to run in the primary.

In Knott county there are three candidates for County Attorney to fill the vacancy created by the resignation of Carl D. Perkins—Afton Smith, D. H. Hall and L. C. Stone.

Cost of Living Only Thing Higher Than The Thermometer Here

National survey recently indicated there was only one thing higher than the temperature, and that's the cost of living.

In a single month meat prices have advanced from 4 to 14 cents a pound; butter has gone up 3 to 6 cents a pound; milk is a penny a quart higher in many places.

All indications were a more sensational rise in food prices, particularly meat, is yet to come.

A survey of the high cost of living in 15 key cities showed \$1 a pound was the common price for the "cheaper" cuts of steak in "many cities, and was expected soon in others.

Even in Kansas City, where fat steers were pouring into the stockyards and slaughtering houses, high prices, the citizens who wanted round steak were paying \$1.10 a pound for it. 12 cents more than a month ago.

In a survey of 15 cities round steak was selling above or just below \$1 a pound.

Butchers reported another 4 or 5 cents a pound hike can be expected in most places within a few days. That is because steak on the hoof continued to break price records at several midwest livestock markets.

Elkhorn City Nips Harold To Cop State Championship

A team from the Big Sandy section has again won the Kentucky baseball championship and may again compete at Wichita, Kansas, for the national semi-pro crown.

Elkhorn City of the Big Sandy Baseball League won the title Monday night in the state finals, defeating Harold, of this county, 7 to 4.

The Pike countians will play the Tennessee champions at a date and place later to be decided for the right to play in the national tournament.

The state tournament at Elkhorn City began last Wednesday with Prestonsburg losing a dose-upset to the Pikeville VFW, 6 to 4. After unexpectedly dropping that game, however, the team representing Prestonsburg collected itself and played excellent ball until eliminated by Harold in a thriller Saturday, 8 to 4.

Harold, believed by many to be the best team in the tourney, could not get past Elkhorn City.

All teams in the tournament were bolstered by new pitching and batting strength recruited from other teams.

The tournament results:

Wednesday — Pikeville VFW 5, Prestonsburg 4; Harold 3, Covington 2; Corbin 15, Louisa 1; Elkhorn City 17, Irvington 2.

Thursday — Harold 8, Corbin 1; Elkhorn City 15, Pikeville VFW 6; Covington 13, Louisa 4; Prestonsburg 10, Irvington 1; (Irvington's and Louisa's losses in this round were their second, dropping them from the tournament.)

Friday — Prestonsburg 6, Covington 4; Pikeville VFW 7, Corbin 4; Harold 12, Elkhorn City 4; Corbin and Covington lost their second game in this round and were eliminated.

Saturday — Harold 4, Prestonsburg 4; Elkhorn City 4, Pikeville VFW 2 (eliminating Prestonsburg and Pikeville).

Sunday — Elkhorn City 8, Harold 7 in 12 innings.

Monday — Elkhorn City 7, Harold 4.

How To Win Tourists, Influence Business, Subject of Course

"You don't need a Kentucky squirrel rifle to stop a tourist. The reason most towns do not attract more tourists is that they do not make an effort. The typical situation is that you feed them, fill 'em up with gas, and actually push them along to the next town or the next state."

Watson Armstrong, state director of vocational education, made that statement. An organized program of instruction in tourist courtesy is to be offered in Kentucky this summer by the division headed by him, in cooperation with the University of Kentucky and other agencies.

Prof. W. Maurice Baker, head of the U.K. Distributive Education Department and co-ordinator of the new statewide program, said the course is intended to make Kentuckians conscious of the need for a more friendly attitude toward tourists, and to develop a plan of practicing courtesy.

Designed for service station attendants, restaurant and hotel personnel, garage employees, traffic officers, and others who meet the traveling public face to face, the three-session short course will be offered in vocational training schools at Ashland, Covington, Paintsville, Harlan, Hazard, Somerset, Lexington, Louisville, Bowling Green, Madisonville, Owensboro and Paducah. There will be no charge for the instruction.

District meetings to train instructors who will teach the course are now being held under the direction of Prof. Baker. Vocational school directors will announce when the course is to be given locally.

Those completing the tourist courtesy course will receive a display card bearing the words, "Tourist Information."

SPORTS AFIELD

By TED KESTING

Fish age studies are a vital first step in making fishing better in our lakes and streams, reports Robert O. Beatty, conservation director of the Isaac Walton League.

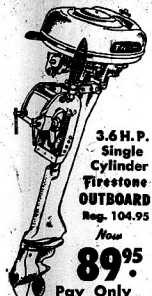

It works like this: Local anglers contend that nearby Mud Lake is fished out, so a team of fishery biologists is called to disprove the case. They make a collection of the various species of fish in Mud Lake and do an age and growth study of them. That is, they study the fish scales. The big value of scale readings is the rate of growth, not just the fact that a given fish is so many years old.

Contrary to popular belief, every circle on a fish scale does not represent a year's growth. It marks a layer of bone which is formed in relation to the conditions of existence encountered at the time of its formation. Thus, during periods of poor growth, as in winter or during spawning, these rings do not complete their growth. When normal growth is resumed the incomplete growth forms a more or less distinct ring. There may be a number of these in any year. It is by counting the number of true annual rings that the age of a fish is determined. The biologists at Mud Lake find it teeming with bluegills and bass. But they are all small. Yet the scale readings show 70 per cent of the fish in the lake to be three or four years old—time for bluegills to get up to eight inches and bass to two or three pounds.

The answer is too many fish for the amount of food, cover, and spawning ground available—not enough fishing instead of too much. With this information to start on, size and bag regulations can be changed and other remedies introduced.

Thus we see that by knowing the growth rate and general weight of fish in a lake we can tell if that lake is producing the size and number of fish it should. If it isn't, we can do something about it. But first we've got to find out—and fish scales can tell us.

FISH AND GAME NOTES

In an effort to improve fishing in Cumberland river above the falls the Division of Game and Fish recently placed a truckload of buffalo and white bass fingerlings in this stream.

The Fisheries Department expects the white bass to offer another species of game fish for the fisherman, while the buffalo fingerlings in years to come will offer an excellent fish food and the larger ones are expected to give trotline fishermen more sport.

The Division reports excellent results from the hatcheries this season. To date 1,047,434 bass fry have been taken from the hatcheries, which is by far the largest number ever produced. In addition, the fingerling supply in these ponds is expected to double the number of last season. Already 60,000 fingerlings have been distributed and the total by the end of the season may mount to 200,000. Attributed as factors responsible for this sharp increase are better use of fertilizers and improved weather conditions.

Officials of the Division of Game and Fish and C. C. Crossman, supervisor of the Reservoir Utilization, U.S. Engineers Corps of Nashville, will meet at Dale Hollow on July 28 to discuss the allocation of an island on which Junior Conservation Clubs are located to the Division as permanent sites for Junior Camps. If the 35-acre area is allocated to the Division two permanent buildings, a kitchen and dining room, will be constructed and the island will be landscaped.

Burchett Makes Jump To Class A Baseball

Howard Burchett has made the big jump from high school baseball to Class A ball.

The strapping youngster who was Prestonsburg high school's pitching mainstay in his drive to the Kentucky championship this year was recently signed by the Dayton (O.) club of the Central League.

Burchett, who is a son of Mr. and Mrs. Jeff Burchett, of Emma is the property of the Cleveland Indians and in an early try-out twirled three innings for the Indians in an exhibition game with Dayton. His first mound stint for Dayton

was in a relief role in the fifth inning. He allowed the opposition one run on one hit in four rounds.

The former Prestonsburg Black Cat is liked, too, for his ability with the stick as well as for his promise as a pitcher. He started high school play as a strong-armed third baseman and specialized in clouds for extra bases.

The fact that Burchett signed a professional baseball contract will prevent him from playing football at the University of Kentucky which he was expected to enter this fall. On the gridiron he showed great promise at the end position.

TO THE PEOPLE OF FLOYD COUNTY:

Were my record as a Democrat and as a friend to the common people other than what it is, I would hesitate to appeal to you to give me your support in my race for the Democratic nomination for Congress from the Seventh district. But I have grown old in the service of my party and my friends, and I have no hesitancy about asking you now to give me your help which costs you nothing and imposes no hardship on any one.

Labor knows my work in its behalf in the Kentucky Senate. I will be equally loyal as your Congressman. Those who have needed financial assistance because of loss of property and earning power also know I have always met them with a helping hand. At my age I am not likely to change to a penny-pincher who cannot see need or, if seeing it, would ignore it.

All over this district good men and women have flocked to my support. With the help of such as these, I will win the nomination August 7 and win the seat in Congress back for the Democratic party in November.

For such loyalty I shall always be grateful.

Your friend,

DOUG HAYS

STATE CANNOT ASSUME COST

Of Removing Victims From Bell-co. Mine, Holifield Claims

Frankfort, Ky., July 15.—The state cannot spend money to recover and bury the bodies of some 20 men long entombed in a Bell county coal mine, Assistant Attorney General M. B. Holifield said today. The 1946 General Assembly granted \$100,000 for their removal.

Thirty-one miners died from an explosion the day after Christmas, 1945, in the Straight Creek Coal Co. No. 1 mine. Seven men were brought out alive by rescuers, but two of them died.

Uncontrolled fires forced volunteers to leave 20 or more bodies in the mine some 9,000 feet from its entrance. The mine later was sealed up and abandoned.

D. Sisk, chief of Kentucky's Bureau of Mines and Minerals, asked an opinion as to legality of the appropriation before starting the task of cutting an entry into the mine to reach the bodies.

The assistant attorney general explained the state Constitution limits levying and use of tax money to public purposes and prohibits it being spent for debts of cities, counties, individuals or corporations, unless contracted for in defense of the commonwealth.

The state had no contract with the coal company, or the miners, said Holifield, adding: "The opening of shafts to private-owned mines is a private and not a public purpose. The exhuming of dead bodies, unless for the purpose of detecting crime, is a private and not a public enterprise."

"If the estate of the decedents are not able to pay for the expenses of their burial, it is the duty and obligation of the county where the decedents were domiciled, and not the obligation of the state."

NOT TO THE TOMBS FOR JOEY

MEDICAL SCIENCE and the gratitude of a great and humane nation a few days ago caused to be enacted a scene paralleling, though falling short of, the healing powers and the loving spirit of the Christ.

Let us try to establish the parallel.

Lew Wallace's "Ben Hur" was a work of fiction but it was so good that it told with a very real verisimilitude the story of Christ and his times. Memorable characters of that memorable book were Ben Hur's mother and his sister, the gentle Tirzah, who through no fault of their own became lepers, outcasts, shunned by the more fortunate, forced to dwell among the tombs and set apart from others by that tragic cry, "Unclean! Unclean!"

Objects of horror, stoned, reduced to the despair of a living dead, the spirit of these two were unchanged. And they found in the Christ loving-kindness, recognition of their own worth as human beings, and restoration to health.

Down the centuries that same cry, "Unclean! Unclean!" has echoed, and so the sufferer from one of mankind's oldest and most baffling diseases was marked as a pariah to be shunned and forgotten. Only One greater than man was a friend to the leper until medical science, never admitting defeat, always seeking physical salvation for the hopeless, began slowly to edge toward an understanding of this ancient scourge.

Finally, men of science and medicine learned that the leper is not dangerous; that the disease is not easily contracted. Gradually they gained ground, step by step inch by inch, in their search for a cure.

And so in the newspapers there recently appeared a picture which told this story. Established this parallel for those who have read of leprosy, its sufferers, the hopelessness which since time immemorial has gripped those stricken by it.

It was the picture of Josefa Guerrero, the heroic "Joey" of the days when her native Philippines were under the Japanese heel and when American boys were dying for that country's freedom.

"Joey" is a leper. Although she smuggled food through the Japanese lines, carried messages to American soldiers, drew maps and charts of Jap gun emplacements and mine fields, all at risk of her own life, had she lived a short half-century ago she would have been shunned almost as if she were another Tirzah.

But the picture tells another story. In San Francisco she was a smile; Joey, surrounded by admiring army officers, doctors, churchmen and officials. Her arms were full of flowers and gifts. A grateful nation had placed at her disposal an air force plane to take her to a Louisiana hospital for the treatment men have devised through long, painstaking, discouraging hours of study and experiment.

Not to the tombs for Joey.

They could have loaded Joey with medals and Joey could have died with them as other heroes have died, bitterly eyeing those inanimate, worthless reminders of days of glory.

And, but for man's eternal climb upward, they could have cried, "Unclean!" and forgotten her as millions before her were forgotten.

In Less Than a Day You Can Get 1948 Power, Pep and Performance—with this complete factory-new Buick FIREBALL straight-eight

Is your faithful Buick beginning to show the signs of age?

If it is dated 1937 or later, we can transform it into a 1948-powered car—packed with Fireball power, zip and go—in just about 12 working hours!

We'll take out the original engine that has served you so well. Then we'll re-

place it with this brand-new beauty—a sleek and shining job whose every part is factory-fresh—trim, taut and true. It's not only new, but modern—with many of the features of engines going into today's dazzling new Buicks.

There's a brand-new ignition system, from distributor to spark plugs. There are Accurite cylinder bores and Flat-Fit piston rings for more power and greater economy. There are Flatweight pistons for snappy getaway, Stratatoll cooling and all the rest.

You get all this with no waiting—we have an engine for you now.

Does it cost a lot? Not on your life. Its

price compares with the cost of a thorough overhaul. And you can pay for it by the month if you wish.

For new-car fun, dependable new-engine performance and a car worth much more when it comes time to turn it in—come in now and talk things over.

Notice to All Parents In Rural School Districts

August 11, 1948, has been set as
Census Day for all rural school dis-
tricts. On that day all rural teach-
ers will dismiss their schools and
will make a personal visit to the
homes in their districts to get a cor-
rect census of all children. It is most
important that the school area record
of your children is exactly correct.
Please remember this date and have
someone at home who can give all
the names and ages correctly. You
will note, too, that a new state law
requires all first-grade children to
have a medical examination this
year. During this visit your teacher
will get certain information on the
first-graders in regard to their health
record.

Dr. Paul B. Hall

Candidate for Democratic Nomination
FOR CONGRESS
SEVENTH CONGRESSIONAL DISTRICT

MY PLATFORM

To serve all our people of the Seventh Congressional District honestly, faithfully and conscientiously, to the best of my knowledge and ability at all times, and do my part in keeping the United States truly the land of opportunity and the greatest nation on earth.

To the Democrats of the Seventh Congressional District:

My dear Friends:

On August the seventh it will be your privilege and duty to help select the Democratic nominee for Congress from the Seventh Congressional district of Kentucky.

I earnestly ask you for your support in this race because I feel I can and will make you the best Congressman of any one asking for this important office. I know the people and know your needs here in Eastern Kentucky.

I am not a professional politician but just one of you who really wants to do something for our people. All four of my opponents in this primary are now holders of public office. Three were elected by you and one was appointed to office. All four have considerable time yet to serve in these offices. It seems they should be satisfied with the offices you gave them.

It is rumored that if elected to Congress that I intend to quit the practice of surgery. This is absolutely untrue as I fully intend to keep up the practice of surgery.

One of the MANY things I hope to be able to get for our people here in the mountains is a large Federal Tuberculosis Hospital, one that will care for over a thousand patients. I will be untiring in my efforts to get this hospital if elected.

After you have given this matter your serious consideration, I feel sure you will see it is to your best interest, your neighbor's and your people's best interest to help send me to Washington as your Congress-man.

Come out and vote for me, a man who is keenly interested in your churches, your schools and the industrial development of our district. I'll do something about it, if elected.

Sincerely,
PAUL B. HALL, M.D.

Your Support and Influence Will Be Truly Appreciated and Not Forgotten

**WIN
A NEW
MAYTAG**

IN OUR

"OLDEST MAYTAG" CONTEST

That's right—we're looking for the oldest Maytag washer in Floyd county... and when we find it, we're going to give the owner a brand new, latest model Maytag Washer in exchange.

There are no complicated rules in this contest—just write your name and address, and the serial number of your Maytag Washer on the entry blank below. Then—bring the blank to our store. That's all there is to it.

CONTEST CLOSES AUG. 28, 1948

All entries must be in our hands by 5 P.M., August 28 to be included in the contest.

FOUR BIG PRIZES

The owner of the OLDEST Maytag Washer entered in the contest will receive a BRAND NEW MAYTAG—the latest Maytag Washer. In addition, owners of the next three oldest machines will receive valuable merchandise prizes. Read the rules below—then write down the serial number of your Maytag, together with your name and address and get it into our hands promptly.

HERE ARE THE RULES

1. Serial numbers of all machines entered in the contest must be in our hands by 5 P.M., Aug. 28.
2. The owner of the oldest Maytag agrees to exchange the machine for a new Maytag Washer at the time prizes are awarded.
3. Factory records of Maytag serial numbers will determine the age of Washers entered in the contest. Decision of the factory as to the age of each washer entered will be final.
4. You need not be the original purchaser of the washer to win. (Many Maytags have given faithful service to several owners.)
5. Any Maytag owner is eligible, regardless of where the machine was originally purchased. (See Rule 6.)
6. You must be a resident of Floyd county to be eligible.

Note: If you cannot find the serial number on your machine, call us.

KAISER

FRAZER

In just two years we've built and sold more fine cars than any other new manufacturer in automobile history.

Why? Because America fell in love with the KAISER and the FRAZER on sight. Folks are streaming into Kaiser-Frazer showrooms and learning from present owners how dependable these two great cars are. They're learning—from people who drive them—how soundly they are built... how economical they are... how much enjoyment there is in owning one.

THESE ARE THE MOST-COPIED CARS IN AMERICA, road-proved by 250,000 owners in two billion miles of driving. Because plenty of Americans insist on comfort, convenience, style and value, traditional leaders had to "move over"—as Kaiser-Frazer became the fourth largest manufacturer of motor cars in the world in two short years.

Why wait? Enjoy your new car this summer. You'll get fair treatment and highest trade-in allowance.
