Knott — Kirby Amburgey, Democrat, and Paice Gibson, who headed the Republican list, Democratic Chairman Bruce first sent in the list of names of which had Amburgey's name on it.

A letter from County Judge Dennis Starnall presented that no notice of a county Democratic meeting were issued and that the chairman was afraid to call a meeting. The letter added:

"We submit to you the name of Kirby Amburgey, Lebanon, Ky. and W. Adams as the Republican commissioner."

Adams supporting this claim were named with these names: Clarence Wood, Lem Dyer, Major Hix and Reed Hays.

Magiffin—Elliott Warren, Democrat, and John L. Adams, who headed the Republican list, Democratic Chairman Kish Holbrook sent in these names: Ray Holbrook, Patrick Holbrook, E. F. Holbrook, Ed Holbrook and Harry T. Holbrook.

An affidavit from 20 commissioners said no quarrels were present when the county meeting was held. They sent in these names: Elliott Warren, Lee G. Gillette, Marcus Mann, Marie Isaac, Beverly Arnett, Lawrence—Robert Cox, Democrat, and Edgar Van Hosen, third on the list, headed the Republican list. Local chairman B. A. Wells had sent in the list J. J. Jordan, Dave Gledhill, Volney McGuire, Ray Stratton and Herbert Traxner.

A letter April 3 from Jordan asked that his name be eliminated. A letter April 12 from Chairman Wells said the selection of Charles Wells and the selection of Jordan's name had been crossed out and printed in its place was the name of Robert Cox.

Morgan—E. W. Broadway, Democrat, and Thomas M. Nickell, who headed the Republican list. The Democratic chairman had submitted these names: Glenn Gledhill, H. D. Gledhill, Volney McGuire, Ray Stratton and Herbert Traxner.

These delegates hearing the names Bill Ham, Dr. Alex Spencer, and Noah P. Hagar, said the county lists was not submitted in a legal way. Broadway's name was written on the list folder.

But was filed in Franklin court room. Morgan also has declared void the selection of election committee members in 24 counties. Named delegates are these members of the State Board of Election Commissioners: Chairman, Thomas L. Small, Charles B. Upton, Williamsburg, the Republican member, and William C. Lacey, Louisville, Democratic member.

The suit was filed on behalf of 14 Democratic county chairmen and the party secretary in a 24th county. It was filed by Franklin attorney James Lee and William A. Young. Young is state campaign manager. Earl C. Gentry and Ed Taylor are both in the United States Senate. The counties whose Democratic chairmen are plaintiffs are:

Richard Bell, Bowling Green, Barret, Colby, Christian, Clark, Cleveland, Fleming, Gallatin, Glasgow, Harlan, Hart, Henderson, Jackson, Johnson, Knott, Letcher, Laurel, Lawrence, Leslie, Lincoln, Marshall, Meade, Mercer, Morgan, Owen, Owsley, Pulaski, Rockcastle, Simpson, Spencer, Todd and Warren.

Also a plaintiff is Mrs. Kathleen Alexander, Owensville, secretary of the Bush county Democratic committee.

Franklin Circuit Judge William B. Arant is asked to direct the State Election Commission to determine if the suit is justifiable and set aside the appointment of Democratic county commissioners on May 31.

John A. Berry, county assessor, said the suit is not a valid one. He said it is a suit to prevent the election of a new county commission to the State Election Commission. He said the suit is not a valid one.

The Load Grows Heavier For School Leaders

The Minimum Foundation Program, backed by money and made effective through the cooperation of educational leaders and boards of education, has a grave responsibility. The mere spending of money will not make the program effective. The program, as it is brought home to the people in the 1200 counties of the state and out into the thousands of school districts over the state, cannot succeed and cannot be a just or without careful planning. It must be as courageous as it is cautious.

The aim of this program, as we conceive it, and as the common voter who made the program possible also no doubt understands it, is to achieve a better standard of education for every child. That means better teachers as well as better buildings, better school buildings, but better and larger buildings, more modern facilities, improved services in all departments. It means that the school people themselves will have to take the lead, strike out boldly for those things that all people who care for their children, and actually blaze some new trails.

It will, in some instances, be the unpopular thing to do, but as money becomes available school leaders should be built to take the place of the traditional one-room school with its outdoor toilet, poor lighting, inadequate facilities and all the other prospects that supply little inspiration to the young mind.

Equally tough will be another task, that of weeding out the unbusinesslike in the teaching profession, to make way for trained, dedicated teachers who are educationally, morally and by temperament fitted for the job of leading youth of every community, wherever located, to fuller fulfillment of intellectual and moral promise.

As boards of education make an honest effort to meet these and other needs, harassed on every hand by selfish interests, they deserve from the public patience as they work, clearly as their negatives are studied, questioned, and public support every inch of the way, as long as they so work.

The mandate of the people to set in motion the machinery of the Minimum Foundation still exists. They were not thinking of politics, we are happy to say, when they voted the amendment to the state constitution that made this program possible, and all too have the right to remember that the best politics in this case is no politics at all.

Pity The Lawmakers!

Pity the poor Kentucky legislators! The only time in a year when they are not busy with their constituents and their own families, they are busy with the legislature. They are busy with the legislature, and they are busy with the legislature. They are busy with the legislature, and they are busy with the legislature.

ing in originality of thought and action.

On top of all that, the Legislature is at almost every session placed in the inevitable position of having to protect three Kentucky institutions that either are downright harmful or are unproductive of beneficial results to the ordinary citizen. These are whiskey, racing and tobacco; the first a destroyer, the second a waster through the ordinary citizen. These are whiskey, racing and tobacco; the first a destroyer, the second a waster through the ordinary citizen.

The Times is aware that whiskey will be made and drunk and horses bred and raced and tobacco grown and smoked, even if Kentucky produces neither. We do not argue the point that Kentucky should tax any of the state's all three of these institutions which amount to major Kentucky industries. We simply pity lawmakers who must worry and fret about such industries at a time when many thousands of Kentuckians need things as far removed from a race track and a cigarette factory as this state is from Mars.

The irony of it all is, the whiskey, racing and tobacco industries, in fact, can threaten to move their businesses out of the state if the situation doesn't suit them, while the conditions become intolerable to the ordinary citizen he can't threaten anybody or anything—all he can do is move. And that is why, in fact, it is a long time, but in my memory it seems but as yesterday, or a watch in the night, and I have known just about every nook and cranny of the public school system in this long association. I wish I could record a small part of my impressions of education in our state, for it would compel me to evaluate my own experiences and try to work out some sort of score card for education in general. Maybe I had better not try to do that. Anyway, I will accept the privilege of an older man and do a bit of reminiscence.

No. 14—Auxiliary facilities located in property No. 2 to replace un satisfactory but usable facilities. No. 5—Adequate and sanitary basins, special hand and miss sinks and other desirable but not absolutely essential facilities.

These may be given high priority when part of the original plan for a new school plant. A school building, however, is also established according to population, location, and other factors. Remodeling of old buildings not originally constructed for school purposes, or changes in school building in existing ones, have the approval of the state Department. State more classrooms, additional work that facilities must be provided on the number of such rooms.

The state has seen to it that temporary portions of any kind are not thrown up to divide one classroom into two. Such changes, too, may be approved and meet certain standards.

If Floyd county's school board, school superintendent and school purposes that were not constructed primarily for classroom use, would not require State Department of Education approval, unless the space per classroom of at least 600 square feet of floor space and additional space of at least 16.67 square feet as floor space. Sanitary facilities must be provided. A plan also must be provided for each building used for school purposes.

"SIXTY YEARS OF IT"

By the time this article reaches the newspapers that read it, I will be celebrating my sixty years of connection with the public school system in this state. It is a long time, but in my memory it seems but as yesterday, or a watch in the night, and I have known just about every nook and cranny of the public school system in this long association. I wish I could record a small part of my impressions of education in our state, for it would compel me to evaluate my own experiences and try to work out some sort of score card for education in general.

Maybe I had better not try to do that. Anyway, I will accept the privilege of an older man and do a bit of reminiscence.

This first period in school was not, perhaps speaking a part of the group and its social environment would not have occurred and I would not have been a part of the group. From that early day I have not been out of the public school system for every year in school except for the year 1907 when I was in the army. I was in the army for a year and a half, and I was in the army for a year and a half.

I was in the army for a year and a half, and I was in the army for a year and a half. I was in the army for a year and a half, and I was in the army for a year and a half. I was in the army for a year and a half, and I was in the army for a year and a half.

I was in the army for a year and a half, and I was in the army for a year and a half. I was in the army for a year and a half, and I was in the army for a year and a half. I was in the army for a year and a half, and I was in the army for a year and a half.

Sheriff Collins had not learned of the suit till he was asked about the action Wednesday afternoon by The Times. Marshall and Cum said they were called to Martin on a report that Lester needed help...

The plaintiffs in the suit also allege that Shivers was struck on the hands, head and other parts of the body, was handcuffed and placed in the city jail where nine other prisoners were confined in a room about 12 feet long...

In the third suit, the defendant is Sheriff Collins who is sued for \$5,000 damages along with his surety, Actia Casualty and Surety Co. by John H. York and his wife, Thelma Marie York...

A non-union welder and transfer man, Fred W. Mitchell, also is present at the time of the stationing and was indicted along with the Mitchells...

In the undecided murder case, Sidney, much smaller than Mann and in ill health, recently was quoted at the time as saying he knocked Mann down but used only his fists...

Dr. Thompson performed an autopsy on Mann. Creed Martin testified he drove up in front of the Murren's Club was Salinity Jack Mann in the face twice and then turned his head...

Last of the convictions during the trial was that of C. C. and Elmer Hall, who entered guilty pleas on charges of lewdness. They were fined \$75 each...

Three-four cases were continued. Mann, then 17, later goes - still kept in the big cases were undetermined. The charge of possession of alcoholic beverages for the purpose of sale against Lark Hunt was dismissed...

SUITS Made to Measure

Gate's Men Shop Arcade - Ashland

Mr. Advertiser:

The above space is the exact size of a two-cent postal card that business establishments sometimes use for advertising their products.

And this size in THE FLOYD COUNTY TIMES is seen by at least 12,000 people and at a cost of only 85.50 to you.

If postal cards were mailed to 12,000 people it would cost you, the advertiser, \$210.00 for the cards alone plus the cost of printing and handling.

THROUGH NEWSPAPER ADVERTISING YOU CONTACT THE SAME NUMBER OF PEOPLE AND AT A SAVINGS OF MORE THAN \$280, besides saving the work of addressing and mailing cards.

Newspapers Lead In The Advertising Field

In a survey made of the advertising practices of department stores in all sections of the country, it was found that the typical store allocated 80 per cent of the advertising dollar to the newspapers, 9 per cent to television, 4 per cent to radio, 3 per cent to direct mail and 4 per cent to other media. Newspapers have been and still are the advertising leaders.

Sixteen Delegates Sent To State Youth Assembly; 2 Get Legislative Posts

Hi-Y, Tri-Hi-Y and Y-Teen Clubs of Prestonsburg high school sent a delegation of 16, including Mrs. E. Dick Roberts and Charles Wells, leaders to the Kentucky Youth Assembly and these emerged Wednesday with two legislative positions. Named in the election of officers were Minnie Sue Martin, assistant clerk of the House, and Nancy Ellen Rose, chaplain of the House. The Prestonsburg youth clubs have provided the Youth Assembly a number of leaders, including Franklin Conley who was elected Youth Governor two years ago. Dave McCracken, of Highlands high school, Port Thomas, was named Governor for 1956 in hallooting which saw 322 votes cast on voting machines loaned the Assembly by Fayette county. Candidates for major offices at this year's assembly from Prestonsburg include: Charles Weibers for Governor, Kay K. Roberts for Lieutenant-Governor, Lydia Margaret Spradlin for Speaker of the House and Judith Gayle Chadwick for secretary of State Glenn Anderson's campaign manager. Officers held by Prestonsburg students during the assembly were Rebecca Conley, Floor Leader of the House; Minnie Sue Martin, assistant clerk of the House; Nancy Rose, chaplain of the House; Kay K. Roberts, candidate for Lieutenant-Governor; Lydia Margaret Spradlin for Speaker of the House; Cora Ruth Wright, Representative; Garnet Fitzpatrick, Representative; Mrs. E. Dick Roberts, leader.

The Youth Assembly is part of the program of the Hi-Y and Tri-Hi-Y clubs and has for its purpose the study of state government by actual participation through serving on committees, as members of the Senate and House of Representatives, by actively electing the four major state officials. The purpose of the Hi-Y and Tri-Hi-Y Clubs is the inculcation of Christian character. More than half the high schools in Eastern Kentucky have Hi-Y and Tri-Hi-Y clubs.

GIRL, PARENTS ARE WOUNDED

Knott Child, 10, Loses Arm from Gunshot; Row Between Families Blamed

Three members of a Knott county family were wounded by shotgun blasts fired at close range Sunday afternoon, with the shooting of a 10-year-old girl, losing her left arm. The arm of the child, Minnie Terrell Shore, was amputated at Our Lady of the Way hospital, Martin, and she is recovering. Her mother, the youngest of whose seven children was only 11 days old at the time of this shooting, was shot through the hand, and Ella Stone, her father, suffered a flesh wound in his thigh. The parents have been dismissed from the hospital at Martin.

Arrest Tuesday and jailed at Hindman as the alleged gunman was Joe Johnson, about 35, a resident of the Rock Point neighborhood where the Stone residence scene of the shooting is a few miles from Garrard county. A quarrel between the Shore and Johnson families a few days earlier is blamed for the shooting. The report received here said Johnson went to the Stone home and opened fire on the parents and their young daughter sat on a bed. One report said he was either drunk or demented.

the man in his successful way. No issue is held between us now, the issue having been fully decided last August. (The job reported by Chandler's press secretary, G. M. Peley, said the Governor recalled, was a post in the Highway Department.) A Judge Conner statement released to the newspapers, Tuesday: "I realize the Governor is too busy to engage in a private quarrel with me, and I have no desire to bicker with him. His statement of the 30th, however, is such a typical Chandlerism! I think it should be answered. In the first place, the Governor's statement is not responsive to what I said, and, secondly, it is completely and entirely false. The substance of my statement of the 28th was that the Governor last summer deliberately deceived the people about the only real issue in the campaign, to-wit, new taxes, and that he will not tell the truth unless he can twist it to his benefit. "Now supposedly in response to my charges against him, he has issued another false statement. The substance of his statement is that I should not criticize him because he once gave me a state job. That is not true. Gov. Chandler never gave me a job at any time of any kind, and I was not on the state payroll in any capacity during his administration. The records will show that during most of his administration I was a student at the University of Kentucky and was later employed in the private practice of law. "The Governor also says that all the issues of last year's campaign have been definitely settled. No issue is ever settled until the truth is known. The Governor's fond of quoting Scripture when it serves his purpose. He should give consideration to John 8:32, which reads: "Ye shall know the truth and the truth shall make you free."

On and after this date I will not be responsible for any debt incurred by anyone other than myself. JOE B. VANCE, Martin, Ky. 5-3-29-56

Alfalfa Field Day Set For May 12 Near Here To Exhibit Experiments

Alfalfa Field Day will be held May 12 on the farm of Forrest Barklett, near Lenoir, to demonstrate the experiments in alfalfa growing made there this year by the Extension Service. The alfalfa growing plots contain 11 varieties and in addition several fertilizer application experiments will be shown to the farmers. The demonstration plot is 50 by 22 feet and is subdivided into smaller plots for individual experiments. It was seeded last May but the drought last year retarded growth and made the demonstration of less value. There are only three of these demonstrations in the state and the one here is the only one in Eastern Kentucky. Seed and fertilizer were furnished by the Arrowwood Hard ware store, the Farm and Home Store, Francis Wholesale, Howard Wholesale and the Kentucky Bankers Association.

JEFFERSON DAVIS MONUMENT

In Fairview, is the Jefferson Davis Memorial Park, commemorating the birth place of the man who became the President of the Confederacy. The concrete obelisk, in a 20-acre tract, is 361 feet high. At the base is a room, 20 feet square, containing a bronze tablet and a wax-filled panel with a life-sized figure of Jefferson Davis. An elevator carries visitors to the top of the shaft. The monument, erected by the United Daughters of the Confederacy, was dedicated in 1929.

Hospital Discharges
Outnumber Admissions

Frankfort, Ky., April 30 (Sp.)—Fifteen more patients were discharged from Kentucky's six state tuberculosis hospitals in March than were taken in, it was announced today by Joe D. Miller, executive director of the State Tuberculosis Sanatoria Commission.

Admissions totalled 102, and discharges, 117—of which 83 were advised or recommended by the staff, while 34 were "irregular" or due to the wish of the patient.

Admissions and discharges, respectively, at each of the hospitals were:

Madisonville, 16 and 19; Hazard, 24 and 40; Paris, 17 and 13; Glasgow, 17 and 11; London, 12 and 15; Glasgow, 11 and 18.

Patent population, at the end of the month, totaling 722, at each of the hospitals showed Madisonville with 301, Hazard, 222; Paris, 105; Ashland, 100; London, 92 and Glasgow, 96.

Free Auto Insurance Is Violation,—Thurman

Frankfort, April 30 (Sp.)—Commissioner of Insurance Cad P. Thurman warned automobile dealers and insurance companies that a practice of offering free accident insurance to buyers as a gimmick to sell automobiles is a "positive violation of the law."

"It is a Louisville insurance agency that the practice must be discontinued immediately."

"Recently advertisements in some Kentucky newspapers that offer giveaway insurance have been brought to attention of this department," he said. "The practice of offering free insurance is against the law and the fact that the advertisements fail to mention by name the company writing the insurance is also in violation of Kentucky law."

He said that "insurance is not an article, but rather a service, and the assured should have free selection of the company and agent by whom the service is provided."

TAX -- TAX -- TAX!

\$39,000,000 IN NEW TAXES

Happy Has His Hands In Our Pocket
Let's Keep His Hands Off Our Ballot

Last summer, while pleading for your vote, Chandler wept at the plight of Kentucky's poor, overburdened taxpayers.

He said there would be no new taxes during his administration—that the state could "live on what we're getting."

THAT'S WHAT HAPPY SAID IN 1955—HERE'S WHAT HE DID IN 1956:

Passed an income tax bill which SOAKS THE POOR, lightly touches the wealthy, and relieves the horsebettors at Keeneland from paying any tax at all.

Here's how the new income tax bill (HB 1) affects the wage-earner, the coal miner and the sawmill worker in Floyd county:

1. If you are a single man making as low as \$14 a week you must now, for the first time, pay income tax.
2. If you make as much as \$66 a week and have a wife and two children your state income withholding tax is now 14 times higher than it was.
3. The poor man's tax has been increased up to 1800%; but Happy's wealthy friends have been increased only 20%.

AND CHANDLER HIGH-PRESSED THE LEGISLATURE INTO TAKING ALL OFF THE HORSEBETTERS AT LEXINGTON'S KEENELAND RACE TRACK.

Chandler has already got his hand in your pocket—Don't let him get his hand on your ballot on May 29.

Happy wants you to vote for his "Yes Man" Joe Bates. A vote for Bates is a vote of approval for \$39,000,000 in new taxes Happy said he didn't need.

WHEELWRIGHT MOVES

Several letters (all anonymous) from Wheelwright high school students state that they are tired of not being the possessors of the local baseball nine has not been distributed to other parts of the county and state through the medium of The Times and daily papers.

Currently, Wheelwright is leading the Floyd County district with a 2-1 record and, no doubt, has a fine team, as they have had in the past five years. Their regional record of three titles, in four attempts in the past three seasons speaks for itself.

Yet these very same letter-writers, who condemn never take the time to inform yours truly of their activities as schedules, roster, games played and all essential information that would and would produce the school.

Each year during basketball seasons, we receive numerous complaints on the merits on the 15th regional cage teams in the form of letters, both anonymous and signed, and we always answer the signed ones.

We are far from perfect and continuously strive to improve the coverage for the schools in question, but we must have their constructive cooperation. We must have facts, figures and concrete information, not hearsay, gossip and biased feelings.

P'BURG LOSES ITS 1st GAME

West Liberty Wins, 21-10, In Free-Hitting Contest; Distance Clouts, Feature

Playing baseball Sunday for the first time since 1946, the Prestonsburg team was overpowered by the West Liberty team of the Blue Grass League, 21 to 10.

The short right field fence at West Liberty proved to be a blessing to the predominantly left-handed batting order of the West Liberty team whose players smacked no less than seven ground-rule doubles over the right field fence, only 300 feet away.

Lowell Hughes continued his star-studded career in hitting a homer, two doubles, and a single, sending five Prestonsburg markers over the plate and scoring one himself. Ray Wilcox, shortstop, hit the ball hard in gunning a homer and two singles in four times at bat.

Manager Amos Childers said that he was pleased with the showing of the team. He added the boys, although they had little practice, did well in putting 13 hits and would have caught many of the balls that went for doubles if they had been in their home park.

Curt Burchett started for the local team. He gave up 13 runs. Julian Campbell followed Burchett to the hill, giving up the remainder of the West Liberty winning run.

PARK PRICES RISE HINTED

Jackson Claims Parks Are Not Breaking Even; Swim Charges Planned

Frankfort, Ky., April 26—The state park system may have to increase the prices it charges Kentucky and tourists, Conservation Commissioner Laban Jackson said today.

Jackson contends the parks are not breaking even.

The prices charged for food, lodging, and recreation facilities should not be so low that the parks are "under-selling" botanists and restaurateurs in communities near the parks, Jackson said.

Jackson did not specify which prices may be raised. Earlier this month the Division of State Parks announced that it would build fences around sanctuary areas in three more parks and charge an admission fee. "Entrance" prices called for a charge of 25 cents for adults and 15 cents for children.

Claims by the conservation commissioner and Mrs. Ben Red are that the parks that the parks had about \$375,000 last year were based on an act that compared income from park facilities with operating costs, according to Jackson.

This was the reason that the state made its the Conservation Commission auditor did not take into account the \$275,000 State subsidy approved last year for the parks, said Jackson.

"That was not actual income," he declared.

And he said that if the park system ever gets to a point where it operates within its actual revenue from patrons, it could use the State appropriation to develop new parks or expand existing facilities.

"The annual appropriation will be \$225,000 in 1956 and 1957," Jackson said he is "not confident, that we should make money" with the parks.

"But if we are going to spend all this money on schools," the park system will have to institute charges for some services now provided free and increase charges on other services to operate within its income, Jackson said.

He said "it isn't fair" to private operators in communities near the parks, who are being asked to charge less for food and lodging.

"They (the private operators) can't survive under these conditions," he said.

Hobart Mullet Awarded Legion-Sponsored Title

Hobart Mullet, 25-year-old veteran who is a patient at VA hospital, Outwood, Ky., has been awarded the title of "Patient of the Week" for excellent progress in the rehabilitation program at the hospital.

This award is sponsored by the American Legion Auxiliary, Department of Kentucky, and is a phase of the Award of Merit program carried on at the hospital. It is under the direction of the Physical, Medical and Rehabilitation Service.

Mr. Mullet was admitted to the hospital May 8, 1955 and was referred for treatment on June 30, 1955. He was assigned to educational therapy where he took up the study of mathematics. On January 13 of this year, Mr. Mullet was admitted to the occupational therapy section where he has been engaged in assembling a popper for the American Legion Auxiliary. He has given excellent cooperation and has excelled in the study of Mathematics. He has 28 months Army service, with 14 months overseas, and was employed in an automobile factory prior to entering service. He is not married.

Essentials are crystals of the rare mineral beryl.

Mr. Floyd County Voter...

Keep A Real and Effective Friend In The United States Senate

WORK and VOTE for EARLE C. CLEMENTS

For U.S. Senator In Kentucky's Democratic Primary, Tuesday, May 29

There's No Substitute for Experience and Prestige

Earle Clements has both. He learned your problems and your needs:

- At the local level as sheriff, county clerk and county judge.
- At the state level as State Senator and Governor.
- At the Federal level as U. S. Representative and U. S. Senator.
- As a World War I veteran.

It's All In The Record...

EARLE C. CLEMENTS — AS YOUR SENATOR:

- Is piloting through Congress legislation to give effective federal help on small watershed programs including those on the Big Sandy and other rivers.
- Led the fight to restore tobacco acreage to Kentucky farmers.
- Is vigorously supporting federal aid to education.
- Has voted consistently in the interests of organized labor. Already he has been endorsed by the Political Action Committee of the A. F. L. and C. I. O. He has received the endorsement of the Brotherhood of Railroad Trainmen and has been highly praised in the United Mine Workers Journal of April 1, 1956, for his efforts to procure surplus funds for unemployed coal miners.
- Because of his experience, proven ability and progressive thinking Earle C. Clements was selected by his fellow Senators to be their Assistant Majority Leader, an unprecedented honor for a first term Senator.

EARLE C. CLEMENTS — AS YOUR GOVERNOR:

- Started the expanded rural road program in Kentucky. He was responsible for building more rural roads in Floyd county and in Kentucky than any other governor in the history of our state. Watch for a list of these roads to be published later.
- Appropriated more money for Kentucky's schools than any governor who preceded him in office—and this without additional taxes.
- Made Kentucky's park system second to none in the nation, bringing millions of money spending tourists to our state. Our present Governor has cut the appropriations for this progressive program.
- Through the A. & I. D. Board encouraged millions of dollars in new industry to come to Kentucky.
- Obtained increased appropriations for Kentucky's institutions and greater appropriations for the teacher retirement fund, the old-aged, the needy blind, the dependent children and the unemployed of Kentucky.
- Was the first governor to speed up the processing and handling of workmen's compensation claims and raised the injured workers' benefits, both medical and otherwise, beyond that of any governor of Kentucky.

AID FOR AREA BEING URGED

Three Ky. Congressmen Ask Legislation To Help Distressed Areas

Washington, April 28 — Three Kentucky congressmen today urged the passage of legislation to give federal aid to economically distressed areas in Kentucky and elsewhere.
 Senator Clements testified before the Senate labor subcommittee of Chairman Neely (D. W. Va.) Representatives: Hays, Williamsburg Republican and Perkins, Hindman Democrat, testified before the House Banking and Currency Committee headed by Representative Spencer, Fort Thomas, Ky., Democrat.

Clements cited the 11 Kentucky areas classified as "substantial labor surplus areas."
 "Cotton, Frankfort, Hazard, Henderson, Lexington, Madisonville, Middlesboro, Hylan, Morehead, Grayson, Owensboro, Paintsville, Prestonsburg, and Pikeville have more than 6 per cent of their labor force unemployed," he said.
 "The situation is so critical that a federal program is essential immediately," he declared.

He said there are many legislative proposals now before Congress, such as the highway and school construction bills, that would help the areas, but that more specific steps are needed.
 "What is needed, he said, is an immediate public-works construction program in the affected areas. Sites urged the creation of a federal corporation in the Labor Department, patterned after the Tennessee Valley Authority, which he

Rescue 'Victim' Make-up Emphasizes Realism

would call the employment-restoration authority, or E.R.A.
 E.R.A. would co-operate with local communities to bring private industry to the distressed areas. He said the communities could furnish the plant sites, and E.R.A. the building.
 Private enterprise would pay a bonus for 10 years and then would be entitled to take over the property, he said.
 Perkins said wages paid in 33 Eastern Kentucky counties dropped from \$60,000,000 in 1950 to \$51,900,000 in 1955, while population fell from 80,000 to 70,000. He said Government plans must be prepared to help the economic life of all distressed areas.
 Perkins said that if the Big Sandy were canalized, East Kentucky coal fields would be able to compete in all the markets along the Ohio River.
 He also proposed the formation of a distressed-area administration to determine what Government activities could be used to help such areas.

Gulf Awards Citations In Safe Driving Campaign To Three P'burg Employees

Citations for safe driving awarded by the Gulf Refining Company to employees in its accident prevention program, were recently presented three Prestonsburg men by J. B. Oberbrock, Lexington, Gulf's district manager. They were among 32 employees of the Lexington district who were so recognized.
 The Prestonsburg men are Ralph Breeding and W. D. Mason, each presented a four-year award. Raymond Zeno, one-year award.
 The company's policy is to give such recognition annually to the driver who has operated his vehicle the entire year without having an accident. Citations awarded road. "In appreciation of his carefulness and consideration of the rights of other users of the highway which are attested by these years of safe driving."

DISTRICT RALLY

The Big Sandy District held its Rally Day, April 25, at Paintsville. Fourteen members from Lawrence, Morgan, Magoffin, Martin, Johnson, Pike and Floyd counties were present. County champions of both the Senior and Junior Divisions attended the rally and competed in their respective events.

The club members that were chosen champions in the Senior Division went to Junior Week at Lexington and compete in the state contest.

Clara Ann Allen, of the Betsy Layne 4-H Club, gave a demonstration on "How to Give a Good Manure" in general Junior Division and received a red ribbon. Pam Combs of the Maytown Club, competed in Junior speech and Dairy Food demonstration events and received red ribbons for each.

Next year when these girls are old enough to be in the Senior Division they will have the experience needed to be champions.

In the Senior Division, Floyd county was represented by Claudena Lowe and Palmer Lowe, of the Maytown 4-H Club and Elford Case of the Betsy Layne club. Claudena entered both the speech and general demonstration contest. Her speech, "Farming: A Way of Life," told of the advantages of rural living, and of the many pleasures one receives from the farm. Claudena received a red ribbon for her speech. Her demonstration, "How to Prepare Food for the Freezer," was judged the best in the district, and she received the championship ribbon.

Palmer Lowe entered the "Kentucky Seed Law" demonstration. This is the first year of this event. It shows how the seed law works and the meaning of the seed tag. Palmer was chosen a district champion. Elford Case, of Betsy Layne, gave the "Tag on Seed Bag" demonstration. Case, as last year, was chosen district champion. In his demonstration he explained the Kentucky feed laws, how it operates, and why the tag on the bag means and its importance to farmers.

Lowe and Case also gave a team demonstration on how to plant a strawberry plant. This demonstration is very timely in Floyd county because of the many acres of strawberries that are set each year. The boys received blue ribbons for their demonstration. In the District Talent show, which was held in connection with District Rally, there were three girls representing Floyd county. Tommy Ray Lavin, of Allen, did a pantomime act in the individual division and received a red ribbon.

Mary Blanton and Charlene Goble, of Deale, sang a duet in the small group division. The girls sang "Too Young to Tango" and received a blue ribbon. Next year, club members and leaders are looking forward to a bigger and better talent show. Floyd club members are wonderful opportunity to perform before crowds and show how much talent our club members have.

Those attending the District Rally, besides the 4-H club members and agents from Floyd county, were Mr. and Mrs. Kenneth R. Howard, Mrs. Ralph Spencer, Mrs. Fletcher Gayheart and Mrs. Russell Lavin.

Besides his wife he is survived by the following sons and daughters: Garde Prater, Radcliff, O. O. Prater, Pichon, O. Desk, Prater, of Hueysville; Jobe Prater, of Alphaeta; Mrs. Perry Prater, Mrs. Edna Goble, and Velva Coley, of Hueysville; Ballard Prater, of Mantion; Mrs. Julia Goble, and Mrs. James Clark, both of Langley; Mrs. Wallace Barbett, of Mantion; Mrs. James Hale, of Riney; Mrs. J. C. Clark, of Mantion. Thirty four grandchildren and four great-grandchildren.

Funeral services were held Tuesday at 10 a. m. at the home of Mrs. Henry Mathias, and Sunset Howard officiating. Burial was made in the family cemetery on Brush Creek under the direction of Hall Bros. funeral home.

FARMER IS SOIL'S STEWARD AND RESPONSIBILITY GROWS

BY D. A. WILLIAMS
Administrator, U. S. Soil Conservation Service

Something more than material things—American landowners and farmers—our nation's conservation leaders—must recognize that more than the established fact that soil and water conservation increases farm buying power, a motivating business and countless others to support conservation work.

A farmer or rancher finds pleasure in the beauty of his conservation-treated fields, pastures, woodlands, and wildlife areas. And I feel that all the rest of us share his pleasure as we drive by or fly over the acres, or when we're extra fortunate, have a chance to see healthy soil at vigorous and beautiful feet, or join the owner in harvesting a wildlife crop more abundant now than a few years ago.

But there is another important motivating force for conservation. Under no phase to consider the fact that soil is the fast-growing realization in every country we know about that wise use and treatment of soil is a moral responsibility.

Unless we pause to consider the fact that soil is a gift of the Creator, and that we, all of us, have a stewardship responsibility for it. Under no phase to consider the fact that soil is a gift of the Creator, and that we, all of us, have a stewardship responsibility for it.

Under no phase to consider the fact that soil is a gift of the Creator, and that we, all of us, have a stewardship responsibility for it.

Under no phase to consider the fact that soil is a gift of the Creator, and that we, all of us, have a stewardship responsibility for it.
