

Saturday Event Plans Complete

Red, White, Blue Day To Attract Thousands Here

It began with Armistice Day after World War I, then became known as Armed Forces Day, and neither was widely observed in this county.

Now, Floyd county has its own Red, White and Blue Day—that's Saturday, this week—and the four-year-old annual event rolls all into one day an observance which honors those who went to war for their country and pays tribute to those qualities of life, basic principles, old customs, occupations and pastimes which are part and parcel of the American heritage in this corner of the land.

County Judge Henry Stumbo this week issued a proclamation, designating the period, Oct. 21-27, as Red, White and Blue Week in this county, "in honor of our veterans," and Saturday, Oct. 20 "as a special observance day" in Prestonsburg.

Red, White and Blue Day has drawn thousands to Prestonsburg every year since its inception, and this year's gathering is expected to be the greatest ever, Mrs. Marcella Bailey, Langley housewife, founder of the event, said.

The day's program will begin at 10 a.m., and this year the observance is expected to be more than a purely Floyd county event. Other counties will be represented. The day will begin with entertainment for veterans, gospel singing, addresses, Blue Brass music. At 12:30 p.m. will be the flag-raising and address by Adj. Gen. Richard Frymire, representing Governor Ford. The parade of bands, floats, service, fraternal, civic and school organizations will begin at 2 p.m.

This parade is a show in which anybody who is able may participate. "Here young and old, people of every walk of life, creed or color can march together," Mrs. Bailey said.

The colorful floats will depict more than the theme of patriotism. They will reflect early life in Eastern Kentucky. Marching bands, antique cars, horses, clowns—all these will have a part.

The day's finale will begin at 5 p.m. with an oldtime bean-stringing and corn-husking. Then square dancing far into the evening.

Hospital Meeting On Emergency Care Set Friday Evening

Dr. Ballard Wright, chief of staff, Highlands Regional Medical Center, announced this week that a meeting will be held at 7:30 p.m., Friday, in the hospital cafeteria in an effort to solve the problem of emergency care at the medical center.

The number of emergencies requiring care has outstripped the physicians available for service, Dr. Wright explained, and the meeting was called for study and action necessary to meet the situation.

Chiefs of staffs and administrators of hospitals in Floyd, Johnson, Martin and Magoffin counties, representatives of the United Mine Workers and state and federal governments have been invited to participate in the meeting, Dr. Wright said. Most of these have indicated they will attend.

Deputies Arrest 2 in Rum Cases

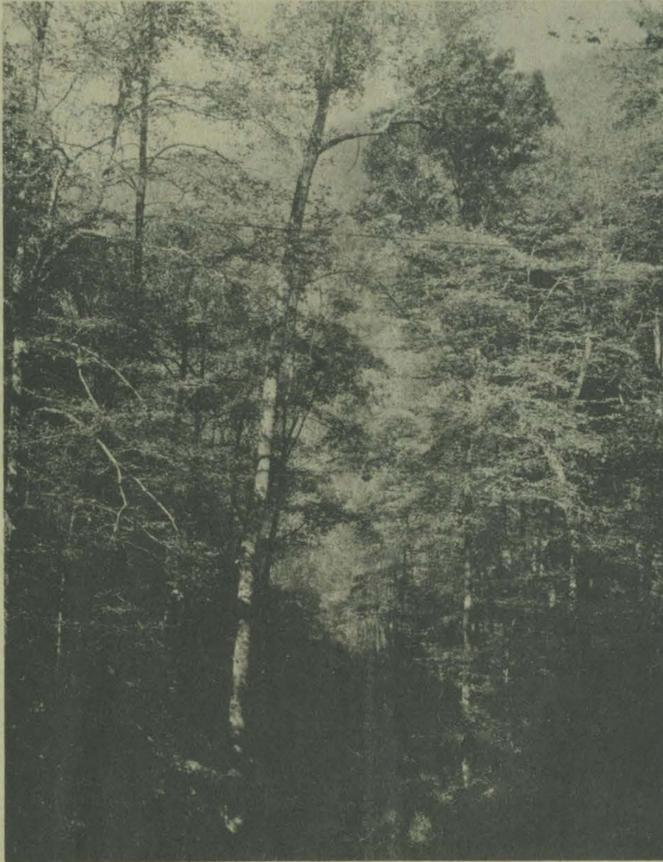

Deputy Sheriffs Roland and Ralph Howell last week jailed two men whom they charged with possessing alcoholic beverages for the purpose of sale.

The two, Herbert Stephens and Earl Mosley, were booked to Magistrate Eddie Caudill's court. Stephens also was accused of assaulting an officer.

Darrell McDonald was returned here from Indiana by State Detective Gary Rose and County Detective Sam Hale last week to face trial on a breaking and entering charge, but the charge was reduced to petty larceny when it was determined that the value of articles taken was less than \$100.

Gerald K. Connors, who was jailed last Wednesday by Policeman "Hack" Thornsberry and held for investigation as an escapee from a veterans' hospital in North Carolina, was claimed later in the week by federal officers. Others booked at the jail, the charge against each, and names of arresting officers follow:

Revenue Sharing Lag Felt by 41 Counties

Floyd is one of 41 Kentucky counties which have failed to receive their quarterly revenue sharing funds this month, and it also is awaiting payment from the Office of Revenue Sharing of about \$30,000 due from last year, County Judge Henry Stumbo said Monday.

The failure of this and 40 other counties in the state, plus 131 cities, to receive their expected checks was attributed by the Office of Revenue Sharing to their failure to file necessary reports.

To which Judge Stumbo retorted: "You can't file a report of this kind except on a form supplied by ORS, and we have not received such a form."

This same experience was Johnson county's where the expected check was missing. It is believed that in almost all the counties and cities which have not received expected instalments the trouble lies with ORS in its failure to forward the forms on which the required reports are to be made.

As matters stand, the county does not have at hand at least \$53,041 expected this month. Judge Stumbo said that this amount is erroneous, that the check should be \$59,000.

It is just such errors that resulted in the "shortchanging" of the county of \$30,000

that it was supposed to get last year but didn't, Judge Stumbo said. ORS has admitted the error and has promised to make good on the arrearage.

A part of the expected revenue sharing check has already been committed by this county, but Judge Stumbo said adequate finances are at hand to prevent a tight fiscal situation.

The town of Allen also is awaiting its check, which for the quarter amounts to only \$183. Other counties in this area which have not received checks are: Magoffin, \$28,390; Lawrence, \$41,624. Salyersville awaits a check in the amount of \$11,115.

Flood Control Easement Suits Could Be Late

Although a flock of condemnation suits have been filed to gain easements over property in and around Martin, officials were not certain this week that the cases can be brought to trial in time to save for Martin the \$3 million flood control project planned there by the U.S. Corps of Engineers.

County Judge Henry Stumbo said he is hopeful that the acquisition some easements and the filing of condemnation suits on others when a settlement appeared impossible will be sufficient to convince the federal government that the City of Martin and Floyd county mean business.

But trial of the cases will not be held before the deadline originally set. They are not expected to be heard before mid-November.

Unlike condemnation cases for highway right-of-way, entrance to these properties for the flood control project may not be gained by depositing in escrow the appraised value of the land. The cases must be heard in quarterly court before the property can be used, and appeals to circuit court could delay action even beyond that.

Landowners Ask \$55,000 Damage

Two owners of Clear Creek land filed last Saturday a suit in circuit court here, seeking to recover from the Imperial Elkhorn Mining Company a total of \$55,000 damages.

The plaintiffs, Nannie Humphrey and Tamery Blankenship, say each owns an undivided one-sixth interest in the land over which the coal company built a road to gain access to a coal seam. Use of the road, they allege, was soon discontinued and the company permitted garbage and refuse to be dumped on and from it onto their property. For this they ask \$15,000. For the alleged dumping of slate and other mine refuse on their land plaintiffs ask \$35,000.

Alleging that the company diverted water from their property for use in a coal operation, plaintiffs ask an additional \$5,000. They also ask \$75 month for the water as long as it is used.

Haul at Martin, Maytown Worth \$100,000, Said

An estimated \$100,000 worth of stereo tape duplicating equipment and supplies was seized last Thursday by special agents of the Federal Bureau of Investigation and Kentucky State Police detectives in a search of three buildings at Martin and Maytown.

Search warrants for the buildings were issued by U. S. Magistrate Harry C. Campbell, of Pikeville. Nobody was arrested at the time of the raids but both federal and county warrants may be issued shortly.

The Highland Music Distributing Company at Martin, another building owned by the firm there and a third at Maytown were hit almost simultaneously by the officers. Thomas W. Kitchens, special agent in charge of the Legal Division, FBI, said the tape duplicating business, including supplies in storage, was owned by David Lee Grigsby, of Martin and employed about 15.

In his official announcement of the search Mr. Kitchens said, "The equipment and supplies were being used in violation of Title 17, U. S. Code, and Public Law 92-104, the unlawful infringement upon copyrighted sound recordings for profit."

Kitchen added that with the increased popularity of stereo and tape cartridge duplication has increased and that investigation of other operations of the same type found in the county last week is pending.

Approximately 350 tapes were brought here by State Detective Gary Rose and County Detective Sam Hale for use as exhibits in possible prosecution at the local level. Some of the tapes held by Commonwealth's Attorney Harold J. Stumbo were described as pornographic.

Equipment and supplies taken at Martin and Maytown were hauled away in two U-Haul-Its.

WELCOME, GOVERNOR!

Last week, we announced that Governor Ford will move state government to Prestonsburg today (Wednesday). The Governor's office will be open from 10 a.m. till noon and from 2 to 4 p.m., in the county courtroom. The Times welcomes him and his staff to Floyd county, if any welcome is necessary. He should feel at home here, in view of the fact that this county gave him one of the biggest majorities recorded in the state toward his election.

THE ALMANAC MADE IT

We are glad to report that before the paper shortage became too critical the Old Farmer's Almanac has made its appearance for 1974, complete with weather forecasts, star charts, pithy sayings, cooking hints, etcetera . . . My faith in the almanac's predictions about what will happen, weatherwise, a year or more away, remains as strong as my trust in the Weather Bureau's prognostications, based on radar, satellites, and all other scientific gadgets, for tomorrow.

Husband's Sweet Tooth Starts Candy Production Plant Here

A Prestonsburg man's liking for the candy made by his wife has resulted in the founding of a new business here which is moving into the national market.

After retiring from the operation of the Mountain Metal Company here last year, Charles M. McCoy began casting about for something to do. Then he remembered the delicious black walnut fudge Mrs. McCoy on occasion made.

So was born the firm known as Old Time Kentucky Mountain Black Walnut Fudge Candy.

The McCoy's began their candy-making last November on the kitchen stove. They sent samples to Pittsburg, Indianapolis and Chicago. The response? Orders for candy, accompanied by checks. So encouraged, they purchased modern candy-making equipment which will

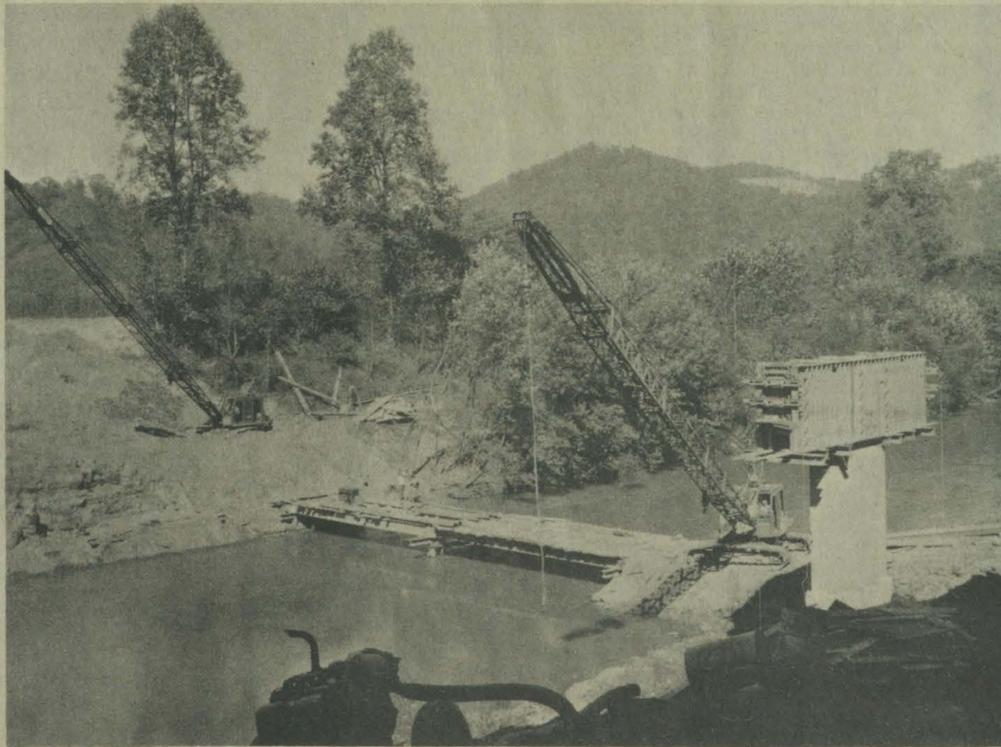

produce 300 to 500 pounds a day. A second machine is on order.

The business is moving into a new location with the renovation of the former Exxon Service Station building on Lake Drive here, which is being enlarged by a 50 by 30-foot addition. The McCoy's hope to have the new location partially open by November 1.

Last week, the McCoy's made their first shipment of their product to a franchised outlet in Colorado.

"I think you have a winner," wrote Richard J. Davidson, chief candy technologist of the SuCrest Corp., Chicago, to whom a sample was sent. And he added: "With a corporate name as long as yours (Old Time Kentucky Mountain Black Walnut Fudge Candy), how can you go wrong?"

And, wrote Justice Steinfeld, "We agree."

The opinion points out: "The Commissioner argues that the court's judgment was erroneous because the Kentucky State Medical Plan was approved by the United States Department of Health, Education and Welfare. He has not directed our attention to any place in the record where the factual basis for this argument was presented in the lower court, therefore, we cannot consider it on appeal. Furthermore, there could be no merit in such an argument for it is the administration of the plan that we are presently concerned with and not the plan itself."

"The Commissioner admits that in such cases as claimants confined in nursing homes, tuberculosis or mental hospitals, a special provision is made by Section 5369 of the manual. The anticipated charges for the care of those patients are deducted in computing income to determine whether there is 'excess.' Medical insurance premiums paid in advance also are deducted."

The Cliftons argued that the directions of the manual are contrary to that part of the Social Security Act which provides: "A state plan for medical assistance must...include reasonable standards...for determining eligibility for and the extent of medical assistance under the plan which...provide for flexibility in the application of such standards with respect to income by taking into account...the costs (whether in the form of insurance premiums or otherwise) incurred for medical care or for any other types of remedial care recognized under State law."

"We construe the foregoing federal enactments," the high court opinion said, "to require the state to follow a procedure by which fixed and measurable medical expenses, such as the Cliftons have, are to be deducted from their total income before a final determination is made of their eligibility for a medical assistance card."

"Moreover, it appears to us that to use a different approach for the Cliftons from that followed with respect to the medically needy who pay health insurance premiums or those institutionally confined would result in impermissible discrimination."

Mr. and Mrs. Clifton were represented by Paul F. Fauri, attorney associated here with the Appalachian Research & Defense Fund.

FISHING REPORT

How did I do, fishing? Well, not so poorly that I have been skulking down back alleys all week to avoid questions from sarcastic friends . . . For three whole days I forgot all about newsprint shortages, office problems, telephones, dissatisfied readers, dandruff—everything but the business of catching fish—but it all was waiting for me when I got home. Zounds!

A STIFF BLOW

I do not go along with Spiro Agnew, politically, but the announcement that he had given up the fight and resigned was a sharp blow. I had an idea that he was the White Knight on a chessboard occupied mostly by black pieces. Now, the one consoling thought that remains is that this is the only country on earth whose government could keep functioning amid such a morass of hanky-panky, dark stratagems and the like. Even England would had a new election and the governing party would have toppled. In most other countries there would have been revolution. Here, we patiently await our turn, and government continues. (Hope I'm not wrong about this conviction, too.)

To The Voters of Magisterial Dist. No. 1

In last week's Floyd County Times my opponent condemned me for earning a livelihood for my family. However, he failed to show any proof of my having neglected any road or my duties as Magistrate in Dist. No. 1.

We have purchased more than \$300,000 in new equipment to further our Rural Program.

My opponent states he has three children to support. Does he expect the office of Magistrate to do this, if he were elected?

My terms of office have been free from any scandal, and will continue to be.

Simply because I work 40 hours per week at another job to support my family should have little, if any, bearing on this office. Floyd county has never had a Magistrate who did not work at another occupation.

Just because I want to stay honest and not abuse this office, I will continue to work and not try to abuse the office by any dishonest act to make it pay more than the legal amount set forth by law.

ROPES Groups Back Program on Education

The board of directors and advisory council of Region 11 ROPES (Regional Organization for Providing Educational Services) endorsed last Wednesday the joint legislative program on education which will come before the next Kentucky General Assembly.

The two groups meeting separately, adopted resolutions supporting the legislative proposals in cooperation with the state Department of Education, state Citizens Advisory Committee and joint legislative committee.

The legislation is based on the Kentucky Foundation Program Study which calls for revamping education in the Commonwealth. The study deals with topics such as school district organization, state and local financing, educators' salaries, construction and student transportation.

Arnold Guess, deputy director of the bureau of administration and finance for the state education office, reported to the board and council on the Foundation Program Study and told them he thought two of the recommendations are most important.

The most important, he said, is the recommendation to change the money allocation formula from one based on classroom units to one based on pupil cost unit. He explained the revision would, for example, give more funds to students in special education programs who might need special materials for study.

The second important recommendation, Guess said, would be to raise Kentucky's effort to finance education to

more closely parallel the national effort. He stressed the effort is to be measured in percentage terms rather than actual expenditures.

Guess also urged support for Organization Day to be held at 8 p.m., Oct. 9 in each of Kentucky's 189 school districts. The day is being held to allow districts to form citizens' advocacy committees which would solicit support for the joint legislative programs to be submitted to the General Assembly in the form of an education bill.

Nominations for candidates for the Floyd County ASC Community Committee will be open through Monday, October 29, reports Harry Hill, Chairman of the Floyd County ASC Committee. Elections are held annually by mail, and newly-elected members take office on January 1.

Preceding the election, any three farmers may nominate a candidate by signing a petition which may be obtained by visiting the ASCS Office.

Those eligible to nominate, run for office, and vote in ASC committee elections include farm owners, tenants and sharecroppers age 18 or older.

Farewell Service Slated At Maytown Bapt. Chapel

A farewell service will be held Sunday in the new church home of the Maytown Baptist Chapel, at 3 p.m., honoring the pastor, Rev. Glenn Noe, and Mrs. Noe, who move soon to Whitesburg. The public is invited, though facilities are temporary because the building begun in late July, is not yet ready for permanent occupancy. Following the sermon by Rev. Noe, Rev. Earl Waugh, pastor of the First Baptist Church, of Allen, and sponsor of the Maytown mission since it started in mid-June 1972, will preside, introducing ministers and laymen from other churches, and paying tribute to the departing young pastor, who has led the mission in its rapid progress.

This is not a dedication service but one for the purpose of saying good-bye to the Noes, and making it possible for him to preach the first sermon in the new building that was under roof in two months time.

Notice to Bidders

Sealed bids will be received by the Town of Wayland until 6 p.m. November 5, 1973 for the following:

Construction of one block building 36 ft. by 50 ft., 8 inches, to house fire truck, equipment and one office, contractor furnishing all labor and materials. Bids will be opened at the designated time above and the Town of Wayland reserves the right to reject any and all bids. Mail bids to Town of Wayland, Box 293.

Square Dance Class Open to All at PCC

Through the Community Service Program, Prestonsburg Community College is offering an activity class in square dancing. It is designed for men and women, young and old, who are interested in learning to square dance. There are no lower or upper age limits regarding enrollment.

This activity is being offered because of the revival of interest in the square dance as a distinct American dance form. The basic routines will be emphasized such as the square dance formation, circle left and right, swing and promenade, do-si-do, grand right and left, allemande left, divide the ring, and others. Since a number of social events in Kentucky require a knowledge of these routines, adult couples and their children will find this activity worthwhile.

Judy Music, physical education instructor at Prestonsburg high school, will be in charge. Instruction will take place in the Martin Student Center on Monday, Tuesday, and Thursday evenings from 6:30-7:45 p.m. for two weeks, October 22-November 1.

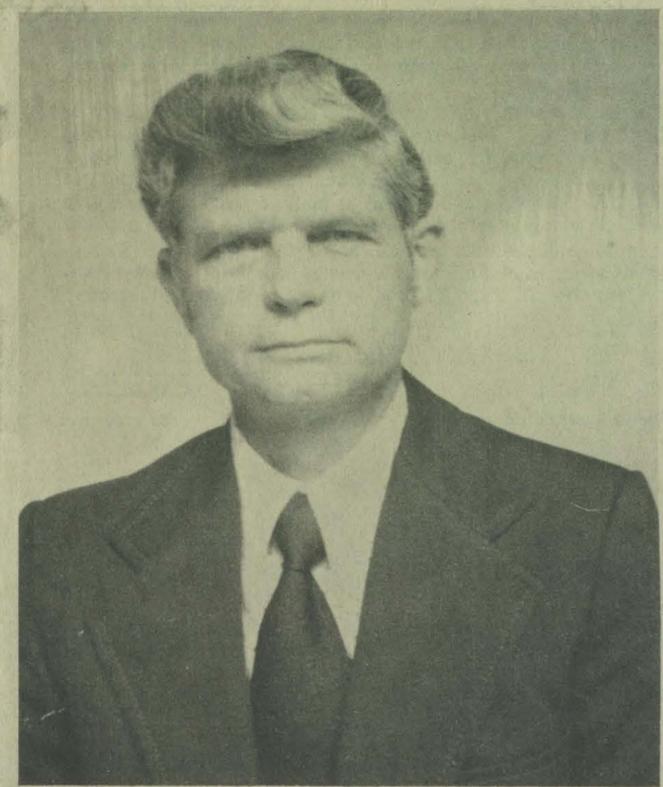

For more information, call James Ratcliff, Coordinator of Community Services: 886-3863.

Mrs. Dorothy Morrison, of Ashland, is here for a week, visiting her mother, Mrs. Alice Cornette, and her sister and brother-in-law, Mr. and Mrs. Joe Wallen. Mrs. Morrison is a L.P.N. at Elwood Rest Home in Ashland.

Mr. Howard Recognized In High School Who's Who

Dalton Ray Howard, senior at Allen Central High School, was recently notified that he is to be among those featured in this year's edition of Who's Who Among American High School Students. Only a small percentage of junior and senior students from over 18,000 high schools throughout the country are given this recognition. Mr. Howard is active in 4-H Club chorus and athletics, as well as being named the outstanding 4-H member for boys in this county, is the county and area Record Book Champion, and holds the citizenship medal.

A son of Mr. and Mrs. Eugene Howard, of Hueysville, he plans to attend Alice Lloyd College at Pippa Passes.

Engagement Announced

Mr. and Mrs. Joe Williams, of Wheelwright, announce the engagement of their daughter, Miss Teresa Williams, to Mr. Tony Dale Cox, son of Mr. and Mrs. Paul Cox, of Melvin.

Wedding plans are incomplete.

Five from County In 'Voices' Choir

Five Floyd county students have been selected to sing this year in "Voices from Appalachia," the Alice Lloyd College choir.

The Voices, directed by Abner Grender, are now rehearsing for their first appearance of the 1973-74 season which will be at 7 p.m. October 27 at Hazard Community College.

The choir usually makes two tours annually, covering southern, midwestern and northern states. Last year "Voices From Appalachia" went on a 34-day tour of the far west, singing in California, Arizona, Texas and Tennessee.

WE'RE GETTING THINGS DONE IN PRESTONSBURG

During the past decade, the people of Prestonsburg have seen experience and action combine to bring more progress to our city than at any time in its history.

- Two new downtown parking lots with room for 232 cars.
- A new sewage treatment plant with plans now approved for expansion.
- A new water treatment plant with plans to increase the capacity from 1 million to 5 million gallons per day.
- A flood gate to prevent flooding of the downtown area.
- Twice-a-week garbage pickup which is citywide and from door to door.
- An up-to-date police force trained and educated in police work.
- A street sweeping vehicle covering all of the downtown area and most of our residential areas, daily.
- Thirty-two-acre Archer Park, a city-operated recreation area with three swimming pools, six tennis courts, skating rink, horse ring, fairgrounds, camping area, softball and baseball fields.
- New street lighting for the entire city.
- Four separate low-rent housing projects totaling 235 units.
- A new library with 50,000 books.
- A two-year community college with a present enrollment of 528.
- The new 150-bed Highlands Regional Medical Center.

These are just a few of the major advances which have come to Prestonsburg. Many other projects are now in the works, including improved garbage service, a mini park for the low rent housing areas, improved streets and highways, a new municipal building, and enlarging the capacity of our sewage treatment plant and our water purification plant.

You can be sure that progress for Prestonsburg will continue. Re-elect the men to your City Council who have brought you this progress in the past . . .

Harold Man's Ideas Pay Off— His Latest Is Worth \$10,000

Estill "Black Hawk" Cecil, former Harold man, is perhaps the most prolific "idea man" on the payroll of Detroit Diesel Allison, a division of General Motors.

His ideas have saved GM money and earned him plenty. A few weeks ago, one of his suggestions earned him a check for \$10,000.

Last year, the former Floyd countian won \$2,500 for another suggestion. Before that he collected awards ranging from \$25 to \$150—15 in all during his 22 years as an employee.

Cecil is a native of Pin Hook Branch, near Harold.

The \$10,000 Cecil won (the maximum under GM's 31-year-old employee-suggestion plan) was for a suggestion he submitted more than five years ago.

His idea called for the combining of three machine operations into one with the aid of conveyors and vibrators at the Redford plant of GM's Detroit diesel division.

"Even after the committee approved my idea, the division had to put the plan into operation to see if it would work," Cecil explained.

For a year and a half Cecil, a finish inspector on the camroller machining line, watched as the conveyors and vibrators got the job done faster and more efficiently than ever before.

"I knew by then that it should pay off pretty well, only I didn't know how much," Cecil said. "Then my supervisor came to me and said I was going to get some money. He knew how much, but he wouldn't tell me. He kept it a secret for three weeks. I was on pins and needles until I got called into the manager's office and he stood with a handful of U.S. government bonds, just grinning.

"I asked, 'What's the limit?', and he (Manager Edward B. Colby) said, 'You've just gone all the way.'

Last year GM paid \$265,000 to more than 2,200 diesel employees for their

suggestions, according to the GM public relations department.

Before Cecil became a finish inspector, nearly two years ago, he set up machines.

"Actually, I'm in a great position to see things," he said. "You've got nothing to lose—just a little time writing your idea down on a piece of paper. If your proposal's no good, they're not going to pay you for it."

Cecil went to Lincoln Park, Mich. in 1950, met the former Jeanette Wood, and married her the next year. The Cecils are making plans for a three-week vacation to several southern states. They'll take their 28-foot camper trailer and money they had previously saved up for the trip.

The West Prestonsburg underpass

Street passing Indian Hills subdivision

Highland Avenue scene

Citizens of Prestonsburg!

Last week you were informed in this newspaper by certain members of the Prestonsburg City Council that they stood for progress. In support of this assertion they listed a right impressive number of accomplishments which they contend were made possible by the wise use of your tax money.

It is, of course, easy to list good deeds and place emphasis on these; when this is done it conveys the false impression that since good deeds were done, no bad ones have occurred and no governmental neglects happened. But is this so?

For instance, does the accompanying picture showing the conditions of the entrance to the underpass leading to West Prestonsburg indicate that progress and a wise use of tax money has been made? Does the picture showing the conditions of the street leading past the Indian Hills Subdivision at Mays Branch show that a wise use of your tax money has been made? What does the picture of old Highland Avenue indicate to you? Does the general condition of the area in and around Highland Avenue indicate that progress has been made for the benefit of all?

If I am elected as a new member of the Prestonsburg City Council, I promise to faithfully support programs which will benefit ALL of our fine people. I will work to see that situations depicted in these pictures will be corrected. I will especially work to see that the poor people of this fine city are treated on an equal basis with the very rich. Only then can it be proudly said that our city has a government of the people, by the people and for the people.

Vote for a new City Councilman, Paul Joseph, on the Independent Ticket. My name is number eight on the ballot.

Paul E. Joseph

Physical Therapist Joins Pike Hospital

Pikeville, Ky.—Mrs. Deborah Puckett, physical therapist, has joined the Pikeville Methodist Hospital staff.

She is the hospital's first physical therapist and will head the hospital's physical therapy department which is expected to be equipped and in operation within the next few weeks, according to Lee D. Keene, administrator of the hospital.

Keene pointed out that Mrs. Puckett is one of the few physical therapists in Eastern Kentucky. Her addition to the staff and the opening of the new department are part of the hospital's continuing program to expand and improve its medical service to the area, said Keene.

Mrs. Puckett said the purpose of physical therapy is to plan all treatment programs in the best interest of the patient, to try to reduce his hospital stay, to prevent or lessen his physical disability, and to return the patient to his highest functional ability.

The goals are accomplished through therapeutic exercises and physical agents such as light, heat and water.

Mrs. Puckett is a graduate of the University of Kentucky where she received a bachelor of science degree in physical therapy. The course is conducted at the Albert B. Chandler Medical Center as part of the University's Allied Health College.

The degree requires four years of college plus four months internship which she completed this summer at Children's Hospital, Louisville; Good Samaritan Hospital, Cincinnati, and West Virginia Rehabilitation Center, Institute, W. Va.

Mrs. Puckett, a native of Pikeville and graduate of Mullins high school, is a daughter of Mr. and Mrs. Albin Hamilton, of the Mullins Addition.

She is married to Gary Puckett, of Pikeville, son of Mr. and Mrs. Lacy Puckett, of Pikeville.

PAUL P. HUGHES
MAYOR

IF ELECTED— I will recommend to the City Council that we hold one of our two monthly meetings in a different neighborhood each month so that the people of Prestonsburg may attend and present their problems and recommendations to the Council.

IF ELECTED— I will recommend to the City Council the construction of another downtown parking lot to improve the City of Prestonsburg as a trade center.

IF ELECTED— I will continue to work with the Prestonsburg Industrial Corporation to free the KAI building in West Prestonsburg so that we may locate another industry there to employ our people. I will also continue to work to get an access road built to the industrial sites at Cliff so that we can locate industry there as soon as possible.

IF ELECTED— I will recommend to the City Council that our two primary projects this coming spring be the improvement of our city streets and sidewalks and the continuation of the city-wide clean-up program that we started this past summer.

The above programs can be accomplished with no additional revenue, and I re-emphasize my pledge: NO NEW TAXES.

Region 11 Board Meeting Slated at May Lodge

The Region 11 Mental Health-Mental Retardation board will hold its annual meeting October 22 at May Lodge, Jenny Wiley State Park, at 7:30 p.m. The regional board serving Floyd, Pike, Johnson, Martin and Magoffin counties will install new officers, review the past year's progress of its mental health agency, Mountain Comprehensive Care Center, and offer new goals for the year 1973-74.

The principal speaker for the occasion will be Johnson county native Dan B. Howard, commissioner of Administration and Operations in the newly re-organized Department of Human Resources. Prior to his appointment as commissioner, Howard was deputy commissioner of the Department of Mental Health. He is a native of Paintsville and is a nationally recognized authority in mental health administration.

Board President O. T. Dorton observed that advances in the mental health program in the Big Sandy Region can be traced not only numerically in the rise of the agency budget and the size of the staff but in the degree of community involvement which the Region has seen in the past twelve months. "There has been a remarkable rise in community interest," Dorton said, "Not only does the community now know more about mental health programs but they have taken an interest in learning the nature of these programs and what they as interested citizens can and ought to do to support and improve them."

Exhibits of arts and crafts made by agency clients, a color slide presentation of the various programs available throughout the region and a printed annual report will be available to those in attendance. While invitations have been sent to key government and community officials, Dorton emphasized that the meeting is open to the general public and they are invited to attend.

Kentucky Afield

By Hope Carleton
Dept. of Fish and Wildlife

The Department of Fish and Wildlife Resources is charged with the responsibility of protection, propagation and perpetuation of fish and wildlife resources in the Commonwealth.

Trained game and fisheries biologists are constantly working to improve both hunting and fishing opportunities for the sportsmen of the state.

Today whitetail deer abound where, in bygone years, only small scattered herds were to be found. Also, wild turkey seasons are now standard and this trophy bird has been added to the sportsmen's list.

Wildlife management areas abound throughout the state, with some one million acres of public land now available for hunting the various species of native and migratory birds and animals.

Kentucky's fishing is rated as good as the best. Rainbow trout have been added to the angler's creel. Today, through the new hatchery located below the dam at Cave Run Lake near Morehead, Walleye, Rockfish, Black Bass and Muskie are being reared and stocked in suitable waters in the state.

Another segment of the department that is on constant call and continuously working for the betterment of both fish and wildlife are the conservation officers.

Conservation officers work to protect fish and wildlife resources for the sportsmen.

Unfortunately, there are people who poach game, take over their limits of both fish and wildlife and pollute streams. In effect, they are stealing from each and every sportsman and conservationist in the state.

Come to the aid of the conservation officers and let them know where poaching is taking place.

Permit System Ruling Affects 2,000 Operators

It was estimated this week that as many as 2,000 operators of trucks hauling coal from Eastern Kentucky mines will be affected by the Court of Appeals ruling which held illegal the permit system under which some of the trucks have been used.

The big trucks, which admittedly have an overweight capacity, cost about \$30,000 each, and most of them are owned or leased by independent truckers.

The permit system permitted truck operators to post a \$2,000 bond on a truck with three rear axles to assure repair of roads which they might damage. The bond for a two-axle truck was \$4,000.

Attorney General Ed Hancock attacked the permit system as illegal. Under the permits trucks and their loads weighing as much as 73,280 pounds were operated. The permit system was instituted under a 1932 statute which allowed permits "for stated purposes, special purposes and unusual conditions." But the Appellate Court held that the 1932 act does not permit overweight operations in the "day-to-day operation of a business" such as coal-hauling.

Coal men said few alternatives remain for coal hauling, especially for strip-mine operations, if the state cracks down on the large trucks. And Attorney General Hancock says his office will continue to file suits unless enforcement of the law improves. The alternatives may be these:

1. The trucks will simply have to haul lighter loads while their owners are getting rid of their big trucks and buying smaller vehicles.

2. Legislative relief to ease the load limits.

The permit system became effective in July, but District Highway Engineer Gail Mullins was quoted as saying few permits had been sought. He estimated that these numbered only around 60 in Floyd and six other counties of his district. Courts have generally been extremely lenient in enforcing the load limit law.

Fred Luigart, Jr., president of the Kentucky Coal Association, said the court's ruling, if enforced, will have far-reaching effect on Eastern Kentucky mines, both deep and surface.

He estimated that from 90 to 100 per cent of all Eastern Kentucky mines now use the trucks to varying degrees.

"Quite frankly it hits every coal operator in Eastern Kentucky," Luigart said. "The question now is how do you develop a system to operate legally and economically? Are we going to keep operating illegally or will there be a system developed where we can operate legally?"

Harry Laviers, Jr., of Irvin, president of the Southeast Coal Co., a deep-mining operation, estimated that the court's ruling would add from 20 cents (for deep mines) to perhaps as much as \$1 (for strip mines) per ton to coal company transportation costs.

One coal company official said his company is already spending an additional \$700,000 per year under a recent per-ton fee increase to encourage truckers to haul lesser loads in the large trucks.

Square Dance Class Is Offered at PCC

This fall Prestonsburg Community College is offering an activity class in square dancing designed for men and women, young and old, who are interested in social recreation and dances of the American folk tradition.

This activity is being offered because of the revival of interest in the square dance as a distinct American dance form. The basic routines will be emphasized such as the Square Dance Formation, Circle Left and Right, Swing and Promenade, Do-Si-Do, Grand Right and Left, Allemande Left, Divide the Ring, and others.

Judy Music, physical education instructor at Prestonsburg High School, will be in charge. Instruction will take place in the Martin Student Center on Monday, Tuesday, and Thursday evenings from 6:30 to 7:45 for two weeks, October 22-November 1.

For the first time in history, Kentucky's governmental budget is being prepared on a program basis instead of the traditional organizational basis.

Kendall-Stratton Vows Solemnized, August 25, At Ft. Belvoir Chapel

Ft. Belvoir's Main Post Chapel was the setting Aug. 25 for the noon military wedding of Miss Donna Lou Stratton, daughter of Maj. Donald Nelson Stratton USA and Mrs. Stratton of Alexandria, Va., and Ens. James Bruce Kendall, USN son of Mr. and Mrs. Ray Kenneth Kendall, of Columbia, S. C.

The Rev. William L. Davenport officiated at the rite. Maj. Stratton gave his daughter in marriage.

The bride chose a gown of imported organza and chantilly lace with scalloped neckline trimmed with pearls and crystals. The bodice had a natural waistline in lace and the full bouffant skirt was fashioned in tiers which flowed into a full cathedral train. Her matching headpiece of lace with pearls formed a profile and a full bouffant veil of illusion fell from the lace. She carried orchids, stephanotis, baker's fern, pink mums and babies' breath.

Mrs. Jarred Ryker, of Alexandria, was matron of honor wearing a yellow gown. Bridesmaids were Miss Deborah Kay Brown, of Morehead, Ky., dressed in green, Miss Jane Lear, of Lorton, Va., in pink and Miss Diane Ait, of Fairfax, Va., in lilac. The attendants wore pompom headpieces and carried bouquets with streamers to match their gowns.

Mr. Charles Schneider, of Columbia, S. C., was the best man. Ushers were Mr. Carl Kendall, of Columbia, and Lt. (j.g.) Donald Allen, of Virginia Beach, Swordsman were Lt. (j.g.) Samuel Hardman, Lt. (j.g.) Robert Fullbright, Lt. (j.g.) Donald Allen, Ens. Paul Kleinhans, Ens. James Nordberg and Ens. Ronnie Marcum.

After a reception at Ft. Belvoir Officers Club the couple left for a Georgia wedding trip. They will be at home in Virginia Beach.

The bride is a graduate of Bluefield Junior College. Her husband is a graduate of the University of South Carolina.

Mrs. Kendall is a granddaughter of Mrs. Walter L. Mann, of Prestonsburg.

College graduates in 1972 seemed more committed than students of 10 years ago to the belief that friendships and family relationships must not be sacrificed or placed in a secondary position to careers, according to a U.S. Department of Labor study.

EACH TIME YOU SLING A LITTLE MUD YOU LOSE A LITTLE GROUND.

Since my opponent, Hollie Barnett, is so deeply concerned about my police and conviction record, I feel I should state same to the best of my recollection. In the early 40's I paid a fine for improper headlights. In 1943 or 1944 I paid a fine for failing to appear in court as witness against city police of Allen, Ky.

In regard to my term in office, which my opponent has classed as worse than Jesse James and Pat Garret, did the primary election prove this to be a correct statement? In reference to the man who picks lead from his ear—better known as James "Red" Slone, ask James Slone whose fault it was.

If you can recall when I was a candidate in 1965 I told the people that they could pick who they wanted for their deputy in their community. All deputies were hired by a petition from the people and thoroughly investigated. The bad ones didn't stay very long. The deputy I think my opponent was talking about was Silas Derossett. Silas Derossett was recommended to me by some of the best Christian people in the area. Silas Derossett's father, Frank Derossett, who had been a life-long friend of mine, asked me to give Silas a chance. Silas was at this time a guard at the Kentucky State Reformatory. Silas was hired to escort funerals, to deliver prisoners to the State penitentiary and to deliver patients to the Eastern State Hospital. His wife donated her time to help deliver women prisoners and patients.
